

# CAMPAIGN EXPENSE PROBE CONTINUED BEFORE COMMITTEE

## Republican Leaders in Further Denial of Cox Charge

### WHITE WILL TELL OF DEMOCRATIC AFFAIRS

CHICAGO, Aug. 31.—Republican finances were again under scrutiny of the senate committee investigating campaign expenditures today. Will Hays, Fred Upham and other party leaders found occasion for further denial of Governor James Cox's charges that a \$15,000,000 fund was being raised and also took occasion to offer the committee leads directed toward the Democratic coffers.

Mr. Upham, treasurer of the Republican National committee was questioned at great length by Senators Pomerene and Reed, Democrats, who elicited from him information that the congressional and senatorial campaign committees of the party had budgets totaling \$700,000 in addition to the more than three million dollar budget appearing in Chairman Hays' testimony yesterday. At Senator Reed's request, Mr. Upham read a table of state quotas which the witness said he made up fourteen months before Senator Harding was nominated. This table totaled more than \$4,000,000, but Mr. Upham explained that he had no hope or desire to collect more than \$3,000,000 of this amount.

### State Quotas

The new table read by Mr. Upham follows in part, the first column showing the quotas and the second the collections:

California	\$200,000	\$27,805
Illinois	500,000	66,317
Indiana	100,000	13,353
Iowa	75,000	23,339
Kansas	60,000	16,293
Michigan	250,000	56,230
Minnesota	50,000	10,925
Missouri	100,000	24,160
New Mex.	50,000	10,080
New York	1,600,000	253,292
Ohio	400,000	190,372

Senator Reed delved deeply into the amounts assigned counties, cities and other local subdivisions of the party organization, but did not shake Mr. Upham's denial that he had no knowledge of the city quota list which Governor Cox read in his speech at Pittsburgh last week. The questioning by the Missouri senator finally led to the point where Mr. Upham said that he did not know how much of the various state quotas was assigned to particular localities. He said he knew of only two city financial directors of the party in the country, one each in Chicago and New York, but he "hoped there were a lot more."

Mr. Upham, agreed with Senator Pomerene, that it was both possible and probable that large sums would be raised in industrial centers by either party of which the national officers of the party would have no knowledge. The witness said no one knew what amounts would be expended by county organizations and then reverting to the list of fifty-one cities which Governor Cox used, he said he had never heard a statement that only four copies of this list were made.

Upham Submits Documents  
Mr. Upham turned over a complete file of the treasurer's Official Bulletins to which Governor Cox also referred. Senator Reed pointed out discrepancies between some figures in the bulletin and the list of state receipts given the committee by Mr. Upham. The latter declared that the language of the bulletin which he said was designed to encourage the field workers might be taken as a manifestation of good salesmanship.

## PACKERS PLAN FOR DISPOSAL OF STOCK YARDS

Would Put Them in Hands  
of Dealers and  
Producers

### GOVERNMENT MAY FILE OBJECTIONS

WASHINGTON, Aug. 31.—Ultimate ownership of the great stock yards of the great stock dealers and producers is proposed by the "Big Five" meat packing companies in a plan for disposition of their yard holdings filed today in the supreme court of the District of Columbia.

Sale of the packer interests in the stock yards was necessitated by a recent court decree compelling the packing companies to divest themselves of all ownership of yards, terminal railways and market newspapers.

The decree resulted from a voluntary agreement between counsel for the packers and the department of justice in the government's attempt to dissolve an alleged trust.

Option to Boston Company  
An option of sale of the packer stock yard interests to F. H. Prince & Co., Boston capitalists, was made a part of the record filed here.

The Boston company is obligated under its option to take over the entire interest of the "big five" in fifteen important market places, the value of which is variously estimated at from \$30,000,000 to \$40,000,000.

Government officials, however, have not finally agreed to the scheme of transferring the packer holdings in the stock yards and have until Sept. 28 to file objections. Counsel for the packers granted permission by the court to change or amend their proposal at any time prior to Sept. 21.

The plan will be argued finally before October 7.

## POLISH FORCES MAKE FURTHER GAINS

Occupy Several Cities—Russians  
Reported to Be Preparing to  
Make Serious Stand.

WARSAW, Aug. 31.—(By The Associated Press.)—Further gains on the northern front are reported in the Polish official communiqué today. Polish troops occupied Augustowa, west of Grodno, where they were enthusiastically received by the population.

The Poles also have occupied Sokolka, Grudek and Narew. It is reported that the Russians are preparing to make serious resistance in the region of Malanar-e-wska river.

The Poles are resisting repeated efforts of General Budenny's cavalry to break thru near Zernose in a movement to encircle Lemberg, Przeworsk, which has been temporarily evacuated by the Poles has been regained in counterattacks.

Bolshevik attacks upon Zaczew, east of Lemberg, have been repulsed with heavy losses. General Budenny's forces have been driven out of the region of Zyzdow and Chodorow, south of Lemberg.

## WILL TEST POWER OF ESCH-CUMMINS BILL

Suit Started in United States District Court at Covington, Kentucky—Coal Companies in That State Complained.

Cincinnati, O., Aug. 31.—A suit to test the power of the interstate commerce commission to enforce service order No. 3 of the Esch-Cummings railroad bill was filed in the United States district court at Covington, Ky., today. The complainants are the Arcadia Coal company and thirteen other coal companies operating in Bell, Kane and Harlan counties, Kentucky, and the action is against the United States government, the interstate commerce commission and the Louisville and Nashville railway company. Complainers claim that under the section of the law in question preferential treatment of coal is made, which makes it impossible for the complainants to market their coal, retain their employees or operate their mines.

ATTACKED WIFE AND  
THEN COMMITTED SUICIDE  
Peoria, Ill., Aug. 31.—Harry Warner, aged 30, of Remington, Ill., tonight attacked and severely wounded his wife, and then committed suicide by slashing his own throat.

Domestic troubles is said to be the cause of the tragedy, according to the police. The Warners have resided here only a short time.

NGRO SENTENCED TO  
BE HANGED  
Kansas City, Aug. 31.—Walker Lee, negro, convicted of attacking a white woman in Independence, Mo., last June, was today sentenced to be hanged Sept. 30, 1920. Motion for a new trial was overruled and an application for appeal was then made by the convicted man's lawyer.

ENGLISH MINERS  
VOTE TO STRIKE  
London, Aug. 31.—The miners by a majority of 367,917 have voted in favor of a strike. It was officially announced today. The vote was 606,782 for and 238,865 against.

## MERCHANT MARINE ACT WILL RESULT IN TREATY ABROGATION

### Officials Believe Many Treaties will Be Terminated

### BELIEVE NO DIRE RESULTS WILL FOLLOW

WASHINGTON, Aug. 31.—(By The Associated Press.)—Complete examination by the state department of commercial treaties to which the United States is a signatory has been revealed that between twenty-four and twenty-seven of such pacts may have to be abrogated under the new merchant marine act, it was said tonight by the department officials.

Section thirty-four of the merchant marine act, requires the president within ninety days, or by September 3, to give formal notice to foreign governments having commercial treaties with the United States that the American government intends to revoke any claims of the conventions which prevent the giving of preferential treatment to Americans or American ships.

Officials expressed the belief today that entire abrogation of the treaties would result from the notice of the president as it is not thought that the other nations will consent to the amendment of treaties in order to enable the United States to discriminate against their own commerce and shipping.

Doubt As To Intent of Congress  
Although considerable doubt exists as to the precise intent of congress as expressed in the merchant marine act on account of the radical consequences which must result in the strict carrying out of section 34, there are ten treaties which are considered as specifically falling within the provisions of the statute which probably will have to be abrogated.

Although the state department has not made public the list of affected treaties the ten conventions which are expected to be terminated are known to include those with Belgium, Bolivia, Costa Rica, Denmark, Great Britain, Honduras, Italy, Netherlands, Norway, Paraguay and Spain. In the case of all, however, twelve months' notice must be given of the intention to abrogate.

There are also about 12 to 15 other treaties about which some question exists as to whether their provisions contravert the merchant marine act.

These include treaties between the United States and the following nations:  
Argentina Republic, China, Colombia, Greece, Japan, Liberia, Congo, Cuba, Morocco, Panama, Tripoli and France.

Despite the probable necessity for the abrogation of the more than twenty treaties, some officials hold that the consequences will follow as commercial intercourse may be regulated by international comity and the general principles of international law.

## PROHIBITION OFFICERS ARREST MOONSHINERS

SPRINGFIELD, Ill., Aug. 31.—After a running revolver fight eight miles northwest of Springfield, Ill., yesterday, Prohibition Agent Brown and two deputy U. S. marshals arrested two of three moonshiners, one of them a woman, destroyed three stills and confiscated ten gallons of hot mash. The two persons under arrest, Pulkaria Guzausk, the woman, and J. Urban, are both Lithuanians. Urban submitted to arrest only after his pursuers aimed at him, and he felt the whiz of bullets.

## MINERS TAKE VACATION

Shamokin, Pa., Aug. 31.—Declaring that they were merely taking a vacation, 1,200 miners at the Bear Valley Colliery near here refused to report for work today. The action was taken it was claimed as a protest against the wage award of the anthracite coal commission.

## MAYOR WOODRUFF OPENS HEADQUARTERS IN CHICAGO

Chicago, Aug. 31.—Headquarters for the gubernatorial campaign of Mayor Edward N. Woodruff of Peoria were opened here today with Alderman E. A. Whitney of Peoria in charge.

## PUBLIC REFUSES TO PAY EXCESSIVE PRICES

WASHINGTON, Aug. 31.—Refusal of the public to pay "excessive prices," caused a continuation of the downward trend of values in August, the federal reserve board declared in its monthly review of business conditions issued tonight. The board added that the reaction against high prices had been accompanied by a general slowing up of demand in the wholesale field and by slight evidences of unemployment in some sections.

The board's views of the national business generally were more optimistic than recent expressions and indicated an expectation of more stability in industry and commerce. While the review mentioned signs of a conclusion of the transition period, it countered with the statement that progress in that direction is slow and "much still remains to be done" before the country can be said to be on a stable basis.

The hopeful assertion was made however, that the readjustment had continued consistently. The board said there was a general attitude of caution on the part of middlemen and jobbers. They are confronted with a continued refusal of retailers in most sections to replenish their stocks of most commodities because of the belief that prices soon will be more stable.

## BROOKLYN CAR STRIKERS MAY RETURN TO WORK

Indications Point to This  
Course After a  
Conference

### VIOLENCE MARKS STRUGGLE TUESDAY

NEW YORK, Aug. 31.—The striking Brooklyn Rapid Transit employees may go back to work tomorrow it was learned late tonight, at the close of a conference between Mayor Hylan, the board of estimates and leaders of the strikers.

The mayor presented a letter received from Federal Judge Mayer, in which the judge agreed to arbitrate every question by Finance. He insisted that the court must reserve the right to restrict any wage awards it feels are not within the financial ability of the company to meet.

Call Meeting of Strikers  
A meeting of all the striking carmen has been called for tomorrow morning when the mayor will present Judge Mayer's proposal, urging the men to accept it and return to work and submit all questions to a board of arbitration.

Two persons were killed and scores injured today as a result of the tieup. The casualties resulted from collisions between improvised conveyances and falls from crowded buses. Many were run down in the congested street traffic.

Two acts of violence occurred late in the day, when a subway train running on a surface section was stoned. The mobman of the train was knocked unconscious by one of the missiles and another struck a woman passenger, badly injuring her.

## MINERS PROTEST PRICE OF POWDER

Go On Strike As Result of Raising  
Price Forty Cents Per Keg  
—Officials Believe Many Mines  
Will Be Closed.

SPRINGFIELD, Ill., Aug. 31.—Coal miners of five mines in the Springfield district were on a strike today and others, Secretary J. J. Watts of the United Mine Workers predicted, will be out tomorrow in protest against the price of powder, which was raised forty cents a keg, by the joint agreement recently made in Chicago.

"Miners regard it as a case of 'Robbing Peter to pay Paul,'" Mr. Watts said. "Pay for day men increased \$1.50 a day, and the price of powder, which the diggers must buy, was raised, it seems to make up for that increase. It widens the already noticeable difference in the pay of day men and diggers. In Springfield, Peoria, Danville and Streator districts no diggers are drawing more than \$6 a day at this time, but the day men are assured \$7.50."

Mr. Watts said the dissatisfaction among the miners would be more apparent tomorrow, which starts a new month's pay.

## PROHIBITION OFFICERS ARREST MOONSHINERS

SPRINGFIELD, Ill., Aug. 31.—After a running revolver fight eight miles northwest of Springfield, Ill., yesterday, Prohibition Agent Brown and two deputy U. S. marshals arrested two of three moonshiners, one of them a woman, destroyed three stills and confiscated ten gallons of hot mash. The two persons under arrest, Pulkaria Guzausk, the woman, and J. ## SEVENTEEN DEAD MANY INJURED IS TOLL OF RIOTING

### Military Used to Assist Police in Keeping Order

### FIRE DEPARTMENT BUSY FIGHTING FIRES

BELFAST, Aug. 31.—Seventeen persons are dead and 169 seriously injured as a result of the rioting which has continued since Saturday morning it was officially announced today. The number of injured however, does not include a very large number of cases of persons suffering from minor injuries who were not detained in the hospitals after they had received first aid treatment. In addition to the loss of life, there have been 172 fires since Wednesday.

At one place last night it was found necessary for the police and military to disperse a crowd before the fire brigade could go to work. Subsequently, the crowd and the police came into conflict in Albion street.

Troops Ordered to Fire  
Military reinforcements arrived and the situation became so threatening that the commanding officer ordered the troops to fire. A laborer was fatally wounded. About midnight a shooting affray occurred at Mount Collier. A woman was seriously wounded by a bullet during a disturbance in the York Road district.

The scenes of destruction witnessed in the Shankill road district last night appalled the spectators. About a score of buildings; principally saloons, groceries and public houses were set on fire. Many of them were gutted by the flames and several private houses adjoining also were burned.

The period of destruction commenced in the early part of the day with attacks on licensed premises and isolated private houses. Repeated attempts were made to burn these places, but the fire brigade saved the premises in most cases.

Many youths appeared among the distributors. When night fell the situation became more serious. Large crowds, chiefly consisting of young men, and boys became very active and were evidently determined upon a policy of reprisals for the Sinn Fein attack in York Street.

Tramway Service Stopped  
The demeanor of the crowds was so threatening that tramway service in the York street district was entirely suspended during the early part of the evening. By 7 o'clock a number of fires had been started and from that time until after midnight the fire brigade had unprecedented experience in dealing with flames.

There was none of the unusual bustle associated with the opening of the day's work in Belfast this morning. People were waiting tensely to see what the day would bring forth after yesterday's unprecedented rioting and bloodshed. The street cleaning did not appear and the city had a rather disheveled appearance.

There were 38 more arrests last night and the Curmish Road prison is overcrowded. A battalion of Cameron Highlanders arrived this morning from Curragh.

## FORMER SERVICE MAN FINDS BODY

CHAMPAIGN, Ill., Aug. 31.—body of a man identified as B. Hartsell of Portland, Ind., by a note book, was found in the weeds along the Illinois Central and Big Four railroad crossing here this morning. A coroner's jury decides death was due to acute indigestion. William Griffith, of Denver, Colo., and two other former service men had a camp near the crossing and saw the man last night. He asked them for a drink and they gave him coffee they made over a camp fire. Griffith returned to the crossing this morning to cook his breakfast and stumbled over the man while looking for fire wood. He notified the police.

## WELL KNOWN MUSICAL CONDUCTOR KILLED

New York, Aug. 31.—Samuel Lehman, well known musical conductor and author of "Everybody Works But Father," was killed here Sunday by an automobile, it became known today. Lehman was 38 years old. The driver of the car was held on a manslaughter charge.

Kankakee, Ill., Aug. 31.—Virginia Althea, three year old daughter of James King of Union Hill, near here, choked to death today on beans which she tried to eat while playing in her grandmother's garden.

## WILL MAKE CAMPAIGN IN AN AIRPLANE

Indianapolis, Aug. 21.—Dr. Aaron S. Watkins, prohibition party presidential candidate, on September 15, will start a campaign by airplane, it was announced here today. The tour will cover all states east of the Rocky mountains.

## RECLAMATION OF LAND LIES WITH STATE AND NATION

Senator Harding Advocates  
Conservation Policy of  
Roosevelt

### LOWDEN PRAISES HARDING ATTITUDE

MARION, O., Aug. 31.—The Roosevelt policy of conservation to develop the west and insure an adequate food supply was advocated by Senator Harding today in a speech to a delegation of Republican governors.

The Republican presidential nominee also suggested that many soldiers of the great war might be provided homes in the undeveloped western country and declared the duties of reclamation and development rested both on federal and state authorities and on public as well as private financing.

Governor Lowden Speaks  
Governor Frank O. Lowden of Illinois, who was a leading candidate for the Republican presidential nomination at the Chicago convention was spokesman of the delegation of governors and in a short speech praised the "dignity and self-restraint" with which the senator had conducted his campaign.

He also voiced a hope that Republican victory would insure a fuller measure of cooperation between the federal and state governments, and in response Senator Harding pledged himself to exert his influence to prevent "encroachments on the several states of the union."

Drawing an analogy between present conditions and those following the Civil war, the nominee declared his conviction that many former soldiers would be glad to help open the unsettled regions of the west as a reward for their services to their country. He asserted that peril to the nation would result unless there were a greater development of agriculture in comparison to the growth of the city population.

Raised Voice Against Profligacy  
"It was against profligacy" he said, "that Roosevelt raised his voice and exercised the veto power. He started the great reclamation movement. Roosevelt performed a great service to the nation and what he did for his time we must carry forward to the future."

Senator Harding also declared that in his conservation policy the government must guard against private monopoly but said he had "no particular preference" between the employment of private capital and public funds to attain the highest productivity of natural resources.

Eight Republican governors and several Republican gubernatorial nominees were in the delegation, which included besides Governor Lowden, Governors Spruill, Pennsylvania; Goodrich, Indiana; Beckman, Rhode Island; Stevens, California; Campbell, Arizona; McKelvie, Nebraska, and Townsend, Delaware.

## PEACE DELEGATES RETURN TO HOMES

Those Remaining in Minsk Will  
Be Recalled Immediately—Suffered  
Indignities.

Brest-Litovsk, Poland, Aug. 30.—(By The Associated Press.)—Tired, dirty and disgusted, M. Dorzhiev, M. Grabinski and several other members of the Polish peace delegation arrived here from Minsk last night and were received by Prince Sapieha, the Polish foreign minister at army divisional headquarters. Prince Sapieha told the correspondent that the delegates remaining in Minsk would be recalled immediately as it had been definitely decided to hold no further negotiations in Minsk. The foreign minister said that he had known sooner or later the delegates they would have been recalled long ago.

## EMPLOYEES GET INCREASE

Pittsburgh, Aug. 31.—A new wage scale affecting 10,000 men and boys employed in Pittsburgh district coal mines and effective from August 16, last, was agreed upon here today by representatives of District 5, United Mine Workers and the Pittsburgh Coal creases are - cOtefn.1 - etao Producers' association.

The increases are similar to advances recently granted Indiana and Illinois workers.

concealed in the mountains, opened fire upon the Thacker property.

The soldiers sent several hundred shots in the direction of the attackers. No reports of casualties were received.

An attack of 230 men, believed to have been directed by the Howard Colliery Company, broke up by eight United States infantrymen this morning after the soldiers had exchanged shots with the attacking party, according to reports reaching here.

## ALL REFERENCE TO SUFFRAGE ACTION EXPUNGED

Tennessee Legislature  
Rescinds Former  
Action

### THINK DECISION RESTS WITH WASHINGTON

NASHVILLE, Tenn., Aug. 31.—The Tennessee house of representatives with a quorum present for the first time since August 20, expunged from its journal today all record of ratification of the federal suffrage amendment and voted forty seven to twenty four, with twenty not voting to non-concur in the action of the senate in ratifying the amendment.

Governor Roberts upon being notified of the house's action declined to make any statement other than to say that the situation could only be dealt with in a legal manner and was in the hands of Attorney General Thompson. The latter in a letter read on the house floor, expressed the opinion that reconsideration was impossible since the action was impossible since the house already had adopted it and Governor Roberts had certified to Secretary of State Colby this action by both house and senate.

Decision in Washington  
State officials and members of the legislature expressed the belief tonight that legality or illegality of Tennessee's ratification would be decided upon the record certified to Washington by Governor Roberts and not on the action taken by the house today.

Shortly after the house convened it became evident that the anti-ratificationists, a majority of whom have been in Alabama on a filibuster for more than a week were in the majority thru failure of several of the suffrage members to arrive in time.

With clock-like program, the anti proceeded to put thru their plan of attempting to undo what was done August 21, when ratification was accomplished.

The first step was a motion to expunge from the journal of that day all reference to the proceedings upon the suffrage ratification resolution. After this was carried, 47 to 37, with six not voting, motion was made and carried that a certified copy of the resolution, the original of which is in the hands of the senate be spread upon the journal.

Ratificationists Overruled  
Representative Riddick, floor leader of the ratificationists, made the point of order that the resolution was out of the hands of the house and now a part of the federal constitution thru proclamation of Secretary of State Colby. He was overruled by Speaker Walker.

The house, by a viva voce vote then adopted a motion to reconsider its previous action upon the resolution. Motion was then made and carried to non-concur in the action of the senate in satisfying the ratification resolution.

Anti-ratificationists would not state tonight whether they expect to make an effort to have the senate which voted to ratify, twenty-five to four, reverse its action.

## RECEIVE DETAILS OF ARMENIAN MASSACRE

Were Given By Charles Farnham  
of Wheaton, Illinois—Relief  
Committee Sent.

New York, Aug. 31.—Details of the massacre of Armenians by Turkish nationalists at Yozgad, Anatolia, reported in dispatches from Paris yesterday, were given the Near East Relief today by Charles V. Farnham, of Wheaton, Ill., recently returned from Asia Minor.

Peasants fleeing to Caesarea from Yozgad told of the crucifixion of men, women and children, and the burning of others by the nationalists and mounted Circassians who stormed the town and burned it early in July.

The relief expedition was sent to Yozgad from Caesarea Mr. Farnham said.

## CAMPAIGN EXPENSE PROBE CONTINUED BEFORE COMMITTEE

### Republican Leaders in Further Denial of Cox Charge

### WHITE WILL TELL OF DEMOCRATIC AFFAIRS

CHICAGO, Aug. 31.—Republican finances were again under scrutiny of the senate committee investigating campaign expenditures today. Will Hays, Fred Upham and other party leaders found occasion for further denial of Governor James Cox's charges that a \$15,000,000 fund was being raised and also took occasion to offer the committee leads directed toward the Democratic co-fiers.

Mr. Upham, treasurer of the Republican National committee was questioned at great length by Senators Pomerene and Reed, Democrats, who elicited from him information that the congressional and senatorial campaign committee of the party had budgets totaling \$700,000 in addition to the more than three million dollar budget appearing in Chairman Hays' testimony yesterday. At Senator Reed's request, Mr. Upham read a table of state quotas which the witness said he made up fourteen months before Senator Harding was nominated. This table totaled more than \$4,000,000, but Mr. Upham explained that he had no hope or desire to collect more than \$3,000,000 of this amount.

State Quotas  
The new table read by Mr. Upham follows in part, the first column showing the quotas and the second the collections:

California	\$200,000	\$37,805
Illinois	560,000	66,317
Indiana	100,000	13,353
Iowa	75,000	23,339
Kansas	400,000	16,239
Michigan	250,000	56,230
Minnesota	50,000	10,025
Missouri	90,000	24,160
New Mex.	100,000	10,080
New York	1,600,000	255,292
Ohio	400,000	190,372

Senator Reed delved deeply into the amounts assigned counties, cities and other local subdivisions of the party organization, but did not shake Mr. Upham's denial that he had no knowledge of the city quota list which Governor Cox read in his speech at Pittsburgh last week. The questioning by the Missouri senator finally led to the point where Mr. Upham said that he did not know how much of the various state quotas was assigned to particular localities. He said he knew of only two city financial directors of the party in the country, one each in Chicago and New York, but he "hoped there were a lot more."

Mr. Upham, agreed with Senator Pomerene, that it was both possible and probable that large sums would be raised in industrial centers by either party of which the national officers of the party would have no knowledge. The witness said no one knew what amounts would be expended by county organizations and then reverting to the list of fifty cities which Governor Cox used, he said he had never heard a statement that only four copies of this list were made.

Upham Submits Documents  
Mr. Upham turned over a complete file of the treasurer's Official Bulletins to which Governor Cox also referred. Senator Reed pointed out discrepancies between some items in the bulletin and the list of state receipts given the committee by Mr. Upham. The latter declared that the language of the bulletin which he said was designed to encourage the field workers might be taken as a manifestation of good salesmanship.

## PACKERS PLAN FOR DISPOSAL OF STOCK YARDS

Would Put Them in Hands  
of Dealers and  
Producers

### GOVERNMENT MAY FILE OBJECTIONS

WASHINGTON, Aug. 31.—Ultimate ownership of the great stock yards by live stock dealers and producers is proposed by the "Big Five" meat packing companies in a plan for disposition of their yard holdings filed today in the supreme court of the District of Columbia.

Sale of the packer interests in the stock yards was necessitated by a recent court decree compelling the packing companies to divest themselves of all ownership of yards, terminal railways and market newspapers.

The decree resulted from a voluntary agreement between counsel for the packers and the department of justice in the government's attempt to dissolve an alleged trust.

Option to Boston Company  
An option of sale of the packer stock yard interests to F. H. Prince & Co., Boston capitalists was made a part of the record filed here.

The Boston company is obligated under its option to take over the entire interest of the "big five" in fifteen important market places, the value of which is variously estimated at from \$30,000,000 to \$40,000,000.

Government officials however, have not finally agreed to the scheme of transferring the packer holdings in the stock yards and have until Sept. 28 to file objections. Counsel for the packers is preparing to make serious resistance to any change or amendment to the plan at any time prior to Sept. 21.

The plan will be argued finally before October 7.

### POLISH FORCES MAKE FURTHER GAINS

### Occupy Several Cities—Russians Reported to Be Preparing to Make Serious Stand.

WARSAW, Aug. 31.—(By The Associated Press)—Further gains on the northern front are reported in the Polish official communiqué today. Polish troops occupied Augustowa, west of Grodno, where they were enthusiastically received by the population.

The Poles also have occupied Sokolka, Grudek and Narew. It is reported that the Russians are preparing to make serious resistance in the region of Malanarowska river.

The Poles are resisting repeated efforts of General Budenny's cavalry to break thru near Zernose in a movement to encircle Lemberg, Przeworski, which has been temporarily evacuated by the Poles has been regained in counter-attacks.

Bolshevik attacks upon Zarnow, east of Lemberg, have been repulsed with heavy losses. General Budenny's forces have been driven out of the region of Zydyczow and Chodorow, south of Lemberg.

DES MOINES, Iowa, Aug. 31.—Judge Martin J. Wade issued an order in federal court today restraining the Iowa railroad commission and other state officials from enforcing the old two-cent fare law, passed in 1907. Hearing on the temporary injunction was set for Sept. 7th.

WASHINGTON, Aug. 31.—Brig. Gen. George Barnett, formerly major general commandant of the marine corps has been assigned to duty at San Francisco as senior officer of the corps on the Pacific Coast. Secretary Daniels announced today.

TOKIO, Aug. 31.—Japanese silk manufacturers have decided to reduce production until the end of the year owing to a break in prices.

WASHINGTON, Aug. 31.—Major H. S. Green, officer in charge of the Quantico, Va., marine barracks post exchange, was knocked unconscious at his quarters in the camp Monday by a robber who escaped with \$12,000 of the funds in his possession. Major Green is now in the post hospital but will recover.

## MERCHANT MARINE ACT WILL RESULT IN TREATY ADOPTION

### Officials Believe Many Treaties will Be Terminated

### BELIEVE NO DIRE RESULTS WILL FOLLOW

WASHINGTON, Aug. 31.—(By The Associated Press)—Complete examination by the state department of commercial treaties to which the United States is a signatory has been revealed that between twenty-four and twenty-seven of such pacts may have to be abrogated under the new merchant marine act, it was said tonight by the department officials.

Section thirty-four of the merchant marine act, requires the president within ninety days, or by September 3, to give formal notice to foreign governments having commercial treaties with the United States that the American government intends to revoke any claims of the conventions which prevent the giving of preferential treatment to Americans or American ships.

Officials expressed the belief today that the entire abrogation of the treaties would result from the notice of the president as it is not thought that the other nations will consent to the amendment of treaties in order to enable the United States to discriminate against their own commerce and shipping.

Doubt As To Intent of Congress  
Although considerable doubt exists as to the precise intent of congress as expressed in the merchant marine act on account of the radical consequences which must result in the strict carrying out of section 34, there are ten treaties which are considered as specifically falling within the provisions of the statute which probably will have to be abrogated.

Altho the state department has not made public the list of affected treaties the ten conventions which are expected to be terminated are known to include those with Belgium, Bolivia, Costa Rica, Denmark, Great Britain, Honduras, Italy, Netherlands, Norway, Paraguay and Spain. In the case of all, however, twelve months' notice must be given of the intention to abrogate.

There are also about 12 to 15 other treaties about which some question exists as to whether their provisions contravert the merchant marine act.

These include treaties between the United States and the following nations:  
Argentine Republic, China, Colombia, Greece, Japan, Liberia, Congo, Cuba, Morocco, Panama, Tripoli and France.

Despite the probable necessity for the abrogation of the more than twenty treaties, some officials hold that no dire consequences will follow as commercial intercourse may be regulated by international comity and the general principles of international law.

### WILL TEST POWER OF ESCH-CUMMINS BILL

### Suit Started in United States District Court at Covington—Coal Companies in That State Complainants.

Cincinnati, O., Aug. 31.—A suit to test the power of the interstate commerce commission to enforce service order No. 9 of the Esch-Cummings railroad bill was filed in the United States district court at Covington, Ky., today. The complainants are the Arcadia Coal company and thirteen other coal companies operating in Bell, Kane and Harlan counties, Kentucky, and the action is against the United States government, the interstate commerce commission and the Louisville and Nashville railway company. Complainants claim that under the section of the law in question preferential assignment of coal cars is made, which makes it impossible for the complainants to market their coal, retain their employees or operate their mines.

ATTACKED WIFE AND  
THEN COMMITTED SUICIDE  
Peoria, Ill., Aug. 31.—Harry Warner, aged 30, of Remington, Ill., tonight attacked and severely wounded his wife and then committed suicide by slashing his own throat.

Domestic troubles is said to be the cause of the tragedy, according to the police. The Warners have resided here only a short time.

### NGRO SENTENCED TO BE HANGED

Kansas City, Aug. 31.—Walker Lee, negro, convicted of attacking a white woman in Independence, Mo., last June, was today sentenced to be hanged Sept. 30, 1920. Motion for a new trial was overruled and an application for appeal was then made by the convicted man's lawyer.

### ENGLISH MINERS VOTE TO STRIKE

London, Aug. 31.—The miners by a majority of 867,917 have voted in favor of a strike, it was officially announced today. The vote was 606,782 for and 239,865 against.

## PUBLIC REFUSES TO PAY EXCESSIVE PRICES

WASHINGTON, Aug. 31.—Refusal of the public to pay "excessive prices," caused a continuation of the downward trend of values in August, the federal reserve board declared in its monthly review of business conditions issued tonight. The board added that the reaction against high prices had been accompanied by a general slowing up of demand in the wholesale field and by slight evidences of unemployment in some sections.

The board's views of the national business generally were more optimistic than recent expressions and indicated an expectation of more stability in industry and commerce.

While the review mentioned signs of a conclusion of the transition period, it countered with the statement that progress in that direction is slow and "much still remains to be done" before the country can be said to be on a stable basis.

The hopeful assertion was made however, that the readjustment had continued consistently.

The board said there was a general attitude of caution on the part of middlemen and jobbers. They are confronted with a continued refusal of retailers in most sections to replenish their stocks of most commodities because of the belief that prices soon will be more stable.

### BROOKLYN CAR STRIKERS MAY —RETURN TO WORK

Indications Point to This  
Course After a  
Conference

### VIOLENCE MARKS STRUGGLE TUESDAY

NEW YORK, Aug. 31.—The striking Brooklyn Rapid Transit employees may go back to work tomorrow it was learned late tonight, at the close of a conference between Mayor Hylan, the board of estimates and leaders of the strikers.

The mayor presented a letter received from Federal Judge Mayer, in which the judge agreed to arbitrate every question by Finance. He insisted that the court must reserve the right to restrict any wage awards it feels are not within the fair play ability of the company to meet.

Call Meeting of Strikers  
A meeting of all the striking carmen has been called for tomorrow morning when the mayor will present Judge Mayer's proposal, urging the men to accept it and return to work and submit all questions to a board of arbitration.

Two persons were killed and scores injured today as a result of the tieup. The casualties resulted from collisions between improvised conveyances and falls from crowded buses. Many were run down in the congested street traffic.

Two acts of violence occurred late in the day, when a subway train running on a surface section was stoned. The motorman of the train was knocked unconscious by one of the missiles and another struck a woman passenger, badly injuring her.

### MINERS PROTEST PRICE OF POWDER

Go On Strike As Result of Raising  
Price Forty Cents Per Keg  
—Officials Believe Many Mines  
Will Be Closed.

SPRINGFIELD, Ill., Aug. 31.—Coal miners of five mines in the Springfield district today went on strike today against others. Secretary J. J. Watts of the United Mine Workers predicted, will be out tomorrow in protest against the price of powder, which was raised forty cents a keg, by the local agreement recently made in Chicago.

"Miners regard it as a case of 'Robbing Peter to pay Paul,'" Mr. Watts said. "Pay for day men increased \$1.50 a day, and the price of powder, which the diggers must buy for that increase. It widens the already noticeable difference in the pay of day men and diggers. In Springfield, Peoria, Danville and Streator districts no diggers are drawing more than \$6 a day at this time, but the day men are assured \$7.50."

Mr. Watts said the dissatisfaction among the miners would be more apparent tomorrow, which starts a new month's pay.

### PROHIBIT OFFICERS ARREST MOONSHINERS

SPRINGFIELD, Ill., Aug. 31.—After a running revolver fight eight miles northwest of Springfield last night, prohibition Agent Brown and two deputy U. S. marshals arrested two of three moonshiners, one of them a woman, destroyed three stills and confiscated ten gallons of hot mash. The two persons under arrest, Pulkaria Guzauski, the woman, and J. Urban, are both Lithuanians. Urban submitted to arrest only after his pursuers aimed at him, and he felt the whiz of bullets.

MINERS TAKE VACATION  
Shamokin, Pa., Aug. 31.—Declaring that they were merely taking a vacation, 1,200 miners at the Bear Valley Colliery near here refused to report for work today. The action was taken it was claimed as a protest against the wage award of the anthracite coal commission.

MAYOR WOODRUFF OPENS  
HEADQUARTERS IN CHICAGO  
Chicago, Aug. 31.—Headquarters for the gubernatorial campaign of Mayor Edward N. Woodruff of Peoria were opened here today with Alderman E. A. Whitney of Peoria in charge.

## SEVENTEEN DEAD MANY INJURED IS TOLL OF RIOTING

Military Used to Assist  
Police in Keeping  
Order

### FIRE DEPARTMENT BUSY FIGHTING FIRES

BELFAST, Aug. 31.—Seventeen persons are dead and 169 seriously injured as a result of the rioting which has continued since Saturday morning it was officially announced today. The number of injured however, does not include a very large number of cases of persons suffering from minor injuries who were not detained in the hospitals after they had received first aid treatment. In addition to the loss of life, there have been 172 fires since Wednesday.

At one place last night it was found necessary for the police and military to disperse a crowd before the fire brigade could go to work. Subsequently, the crowd and the police came into conflict in Albion street.

Troops Ordered to Fire.  
Military reinforcements arrived and the situation became so threatening that the commanding officer ordered the troops to fire. A laborer was fatally wounded.

About midnight a shooting affray occurred at Mount Collier. A woman was seriously wounded by a bullet during a disturbance in the York Road district.

The scenes of destruction witnessed in the Shankill road district last night appalled the spectators. About a score of buildings; principally saloons, groceries and public houses were set on fire. Many of them were gutted by the flames and several private houses adjoining also were burned.

The period of destruction commenced in the early part of the day with attacks on licensed premises and isolated private houses.

Repeated attempts were made to burn these places, but the fire brigade saved the premises in most cases.

Many youths appeared among the distributors. When night fell the situation became more serious. Large crowds, chiefly consisting of young men, and boys became very active and were evidently determined upon a policy of reprisals for the Sinn Fein attack in York street.

Tramway Service Stopped.  
The demeanor of the crowds was so threatening that tramway service in the York street district was entirely suspended during the early part of the evening. By 7 o'clock a number of fires had been started and from that time until after midnight the fire brigade had unprecedented experience in dealing with flames.

There was none of the unusual bustle associated with the opening of the day's work in Belfast this morning. People were waiting tensely to see what the day would bring forth after yesterday's unprecedented turmoil and bloodshed. The street cleaners did not appear and the city had a rather desolate appearance.

There were 38 more arrests last night and the Crumlin Road prison is overcrowded. A battalion of Cameron Highlanders arrived this morning from Curragh.

FORMER SERVICE  
MAN FINDS BODY  
CHAMPAIGN, Ill., Aug. 31.—body of a man identified B. Hartsell of Portland, Ind., by a note book, was found in the weeds along the Illinois Central and Big Four railroad crossing here this morning. A coroner's jury decided death was due to acute indigestion. William Griffith, of Denver, Colo., and two other former service men had a camp near the crossing and saw the man last night. He asked them for a drink and they gave him coffee they made over a camp fire. Griffith returned to the crossing this morning to cook his breakfast and stumbled over the man while looking for fire wood. He notified the police.

WELL KNOWN MUSICAL  
CONDUCTOR KILLED  
New York, Aug. 31.—Samuel Lehman, well known musical conductor and author of "Everybody Works But Father," was killed here Sunday by an automobile, it became known today. Lehman was 38 years old. The driver of the car was held on a manslaughter charge.

DEATH EATING BEANS  
Kankakee, Ill., Aug. 31.—Virginia Althea, three year old daughter of James King of Union Hill, near here, choked to death today on beans which she tried to eat while playing in her grandmother's garden.

WILL MAKE CAMPAIGN  
IN AN AIRPLANE  
Indianapolis, Aug. 31.—Dr. Aaron S. Watkins, prohibition party presidential candidate, on September 15, will start a campaign by airplane, it was announced here today. The tour will cover all states east of the Rocky mountains.

## RECLAMATION OF LAND LIES WITH STATE AND NATION

Senator Harding Advocates  
Conservation Policy of  
Roosevelt

### LOWDEN PRAISES HARDING ATTITUDE

MARION, O., Aug. 31.—The Roosevelt policy of conservation to develop the west and insure an adequate food supply was advocated by Senator Harding today in a speech to a delegation of Republican governors.

The Republican—presidential nominee also suggested that many soldiers of the great war might be provided homes in the undeveloped western country and declared the duties of reclamation and development rested both on federal and state authorities and on public as well as private financing.

Governor Lowden Speaks  
Governor Frank O. Lowden of Illinois, who was a leading candidate for the Republican presidential nomination at the Chicago convention was spokesman of the delegation of governors and in a short speech praised the "dignity and the self-restraint" with which the senator had conducted his campaign.

He also voiced a hope that Republican victory would insure a fuller measure of cooperation between the federal and state governments, and in response Senator Harding pledged himself to exert his influence to prevent "encroachments on the several states of the union."

Drawing an analogy between present conditions and those following the Civil war, the nominee declared his conviction that many former soldiers would be glad to help open the unsettled regions of the west as a reward for their services to their country. He asserted that peril to the nation would result unless there were a greater development of agriculture in comparison to the growth of the city population.

Raised Voice Against Profligacy  
It was against profligacy, he said, "that Roosevelt raised his voice and exercised the veto power. He started the great reclamation movement. Roosevelt performed a great service to the nation and what he did for his time we must carry forward to the future."

Senator Harding also declared that the conservation policy the government must guard against private monopoly but said he had "no particular preference" between the employment of private capital and public funds to attain the highest productivity of natural resources.

Eight Republican governors and several Republican gubernatorial nominees were in the delegation, which included besides Governor Lowden, Governors Sproul, Pennsylvania; Goodrich, Indiana; Beekman, Rhode Island; Stevens, California; Campbell, Arizona; McKelvie, Nebraska, and Townsend, Delaware.

PEACE DELEGATES  
RETURN TO HOMES  
Those Remaining in Minsk Will  
Be Recalled Immediately—Suffered  
Indignities.

Brest-Litovsk, Poland, Aug. 30.—(By The Associated Press).—Tired, dirty and disgusted, M. Domski, M. Grabski and several other members of the Polish peace delegation arrived here from Minsk last night and were received by Prince Sapieha, the Polish foreign minister at army divisional headquarters. Prince Sapieha told the correspondent that the delegates remaining in Minsk would be recalled immediately as it had been definitely decided to hold no further negotiations in Minsk. The foreign minister said that he had known sooner of the indignities suffered by the Polish delegates they would have been recalled long ago.

EMPLOYEES GET INCREASE  
Pittsburgh, Aug. 31.—A new wage scale affecting 10,000 men and boys employed in Pittsburgh district coal mines and effective from August 15, last, was agreed upon here today by representatives of District 5, United Mine Workers and the Pittsburgh Coal creases are - 0.06c. - 1 - 0.04c Producers' association.

The increases are similar to advances recently granted Indiana and Illinois workers.

U. S. Troops Guard  
Property of Coal Co.  
WILLIAMSON, W. Va., Aug. 31.—United States troops, armed with machine guns, repulsed an attack by a party of unidentified men on properties of the Thacker Coal & Coke Company, at Thacker, late today, according to despatches received tonight. Earlier in the day a detachment of federal soldiers routed 200 men who had attacked the Howard Colliery Company, at Chattahoochee.

The disturbance at Thacker occurred when the assailants, according to reports reaching here,

## ALL REFERENCE TO SUFFRAGE ACTION EXPUNGED

Tennessee Legislature  
Rescinds Former  
Action

### THINK DECISION RESTS WITH WASHINGTON

NASHVILLE, Tenn., Aug. 31.—The Tennessee house of representatives with a quorum present for the first time since August 20, expunged from its journal today all record of ratification of the federal suffrage amendment and voted forty seven to twenty four, with twenty not voting to non-concur in the action of the senate in ratifying the amendment.

Governor Roberts upon being notified of the house's action declined to make any statement other than to say that the situation could only be dealt with in a legal manner and was in the hands of Attorney General Thompson. The latter in a letter read on the house floor, expressed the opinion that reconsideration was impossible since the action was impossible since the record certified to Washington by Governor Roberts and not on the action taken by the house today.

State officials and members of the legislature expressed the belief tonight that legality or illegality of Tennessee's ratification would be decided upon the record certified to Washington by Governor Roberts and not on the action taken by the house today.

Shortly after the house convened it became evident that the anti-ratificationists, a majority of whom have been in Alabama as a filibuster for more than a week were in the majority thru failure of several of the suffrage members to arrive in time.

With clock-like program, the anti proceeded to put thru their plan of attempting to undo what was done August 21, when ratification was accomplished.

The first step was a motion to expunge from the journal of that day all reference to the proceedings upon the suffrage ratification resolution. After this was carried, 47 to 37, with six members voting, motion was made and carried that a certified copy of the resolution, the original of which is in the hands of the senate be spread upon the journal.

Ratificationists Overruled.  
Representative Riddick, floor leader of the ratificationists, made the point of order that the resolution was out of the hands of the house and now a part of the federal constitution thru proclamation of Secretary of State Colby. He was overruled by Speaker Walker.

The house, by a viva voce vote then adopted a motion to reconsider its previous action upon the resolution. Motion was then made and carried to non-concur with the action of the senate in satisfying the ratification resolution.

Anti-ratificationists would not state tonight whether they expect to make an effort to have the senate which voted to ratify, twenty-five to four, reverse its action.

RECEIVE DETAILS OF  
ARMENIAN MASSACRE  
Were Given By Charles Farnham  
of Wheaton, Illinois—Relief  
Committee Sent.

New York, Aug. 31.—Details of the massacre of Armenians by Turkish nationalists at Yozgad, Anatolia, reported in despatches from Paris yesterday, were given the Near East Relief today by Charles V. Farnham, of Wheaton, Ill., recently returned from Asia Minor.

Farmers fleeing to Caesarea from Yozgad told of the crucifixion of men, women and children, and the burning of others by the nationalists and mounted Circassians who stormed the town and burned it early in July.

The relief expedition was sent to Yozgad from Caesarea Mr. Farnham said.

## VALUABLE PUBLICITY

Perhaps it is just as well that Gov. Cox made his sensational charges about alleged Republican campaign expenses. In this way the Republican managers have been given a lot of publicity for the real campaign plans and have plans in a way that would not otherwise have been possible. Gov. Cox picked up a hot iron when he began this controversy.

## PINCHOT IN LINE

Gifford Pinchot, Progressive of the Progressives, has come out in

open endorsement of Senator Harding. This nearly completes the list as practically every leader in the old Progressive movement is now aligned with the Republican party. In nearly every instance these leaders have given publication to the reasons for the "faith that is within them." They have come out for Harding and Coolidge because they believe by so doing they are taking into account the best interests of the nation.

## MR. CUMMINGS AS A WITNESS

Mayor Thompson, until a few weeks ago chairman of the Democratic national committee, is certainly fair-minded. He doesn't hesitate to say that from the evidence produced the Republican campaign fund plan cannot be justly criticized. Mr. Cummings has given the G. O. P. leaders a clean bill of health.

## A DEAD WEIGHT

Mayor Thompson, it is said, will make no more downstate speeches. This fact, taken with others, which have leaked out, indicates that the Thompson slate is slipping as the candidates on that slate are finding that Thompson-

ism is a greater political burden than they can carry.

In Chicago the mayor has a big influence but downstate his word cannot be offset with denials or explanations or incriminations against opposing candidates.

## THE VALUE OF AN AUDIT

The audit of the county books as just made public reveals nothing of a sensational nature. However, the report does give point to the fact that the county expenditures have been certainly climbing and last year exceeded the income by a wide margin. There are benefits, however, from any accurate audit of the books of a public officer because of the greater knowledge that people have of the affairs which concern them and about which they know little.

It would be a fine thing for the public service if the law required an audit of county records at the close of each official's term. There should be some provision for an audit and for the discharge of the official bondsmen after a reasonable length of time. There are cases on record, especially in state affairs, where years after an officer has been dead an audit of records has shown discrepancies and bondsmen have been required to pay. In one instance in mind the bondsmen had been dead for years and the repayments required by the state were made from the estates of the bondsmen.

## THE REVISED ROAD DISTRICT

The county board has placed Jacksonville and South Jacksonville in road district No. 7. A road tax will be levied in the city and village, one-half of which will be expended for road improvements in the district outside of Jacksonville and South Jacksonville. Whether the action taken is well considered and justified can be proven only by the results. If the road commissioner each year assesses the limit of the tax and the large sum resulting is not judiciously and fairly spent, then certainly the new order of things will be justly called a failure.

It is very certain that the

apathy of the people on a question of this kind is marvelous to behold. A petition suggesting the action taken was filed a number of weeks ago and that fact was stated in local papers. Then the call for the hearing Monday afternoon was made and publicity given to that fact. The question to be considered involved an addition of \$50,000 to \$60,000 to the taxes of Jacksonville and South Jacksonville.

Yet at this hearing only one woman and eight men appeared to show their interest in the proposal. Many people have the habit of taking no part in elections and then finding fault with the results of their actions. So in the present instance when the new road tax is paid there will be plenty of protests made. But these same protesters were not sufficiently interested to attend the public hearing.

## AN INTERVIEW WITH HARDING

Sherman Rogers, special industrial correspondent of "The Outlook," called on Senator Harding and requested an interview on the labor question and during a call of two hours all sorts of questions were answered by the distinguished candidate for president. Nothing at all was kept back and all interrogatories were fully answered. He said that long before the interview was ended he had not only formed the firm opinion that the senator was four square on all vital issues concerning labor and the farmer but he realized that the candidate possessed two qualities that would make him a great president; a cool head and a warm heart.

Senator Harding said he had faith in the men and he believed in labor's fairness when treated squarely and given an opportunity to become familiar with facts pertaining to their vocations. Working men should be made familiar with conditions so that when a radical comes along grossly misrepresenting conditions the working man can intelligently refute his statements.

The country has not been careful enough to extend the kind hand to foreigners coming to our shores. If the government had taken as much pains to inform the newcomers regarding the constitution and American ideals as the radicals have to misrepresent conditions to the new arrivals there would be far less trouble than now.

The candidate manifested much interest and his answers proved that he was thoroughly familiar with the labor problem and his conclusions were based on a sympathetic understanding far keener and broader than that of many prominent industrial captains with whom the correspondent had talked within the past six months. The correspondent said if Mr. Harding is elected the country will not lack strong, decisive leadership.

Mr. Harding said the deplorable condition of our railroad system should convince the most radical labor leader that returns to railway management must be such that enough capital will be enlisted for the purpose of adequate maintenance and construction and the capitalist must realize that labor must have an adequate wage function properly and guarantee continuity of service.

The burden of the interview showed that the senator contended for more thorough understanding between capital and labor. He believed in unions and collective bargaining when at all possible and on the other hand the non-union man should have the chance to work too if he wants it.

Concluding the correspondent said the senator's views on labor questions and his sympathetic understanding of labor problems far exceeded his expectations and he believed that the candidate is a sincere friend to labor deserving the unstinted confidence of every working man in America.

## OLD JACKSONVILLE

## "BLACK DAN"

By Ensley Moore

(Member Illinois State Historical Society)

The Daily Journal of August 31, 1889, had the following regarding the visit here in June, 1837 of—

## "Daniel Webster"

Editor Journal:

I heartily endorse the request of Mrs. Judge Kirby as given in your last issue with regard to the "Webster street elm". It was my privilege to hear Mr. Webster's speech in 1837, and he being the first national celebrity I had seen (for as yet Baker, Browning, Douglas and Lincoln were not known abroad) it made a deep impression upon me. From the summit of the Alleghenies in looking westward he "had heard the hum and tread of coming millions. At Pittsburgh, Wheeling, Cincinnati and St. Louis he saw men building the smoke crowned cities in a day, the crowded roads for ages with the din of trade." Never have I heard anyone excel his description of the beautiful Ohio, the majestic Mississippi and the placid Illinois rivers, and that but yesterday their glory was dark forests, wild flowers and rank grass. Their sole navigators, Indians, who waked their echoes with the war whoop and hunted alternately wild beasts and men. These rivers destined to float a nation's wealth and flow unfettered to the sea. Little did he then dream of the chain we would break at Vicksburg, on July 4th, 1863. I was then a school boy of 17 years, but no word of that grand speech was lost, and no wonder, for such men as Gov. Duncan, Peter Akers, Pres. Sturtevant, Josiah Lamborn, Murray McConnell, Newton Cloud and John J. Hardin cheered, laughed and cried.

I was surprised that one so dis-

nified as Mr. Webster could tell an anecdote so well—one alone I will give. I think humor in him affected us the more as it seemed in some sense perpetrated, or not fully in keeping with his gray head and very intelligent face.

But to the anecdote. "Western people are bound to become cosmopolitan, they will take up greatness by absorption from your immense rivers and plains, and thus cast off the limited conventionality of older communities. I was much impressed yesterday to see crowds of men come about our packet on the Illinois river from what seemed mere sociability. They rode with us 10, 20, even 30 miles, possibly at the expense of walking home again. One middle aged man rushed up to me, pushed aside the crowd, grasped my hand firmly in both of his. (O, I can feel the pressure yet!) and exclaimed, 'God bless you, Mr. Webster. I can never express my obligation to you for the privilege of learning to spell and read in your spelling book.' I gave him my best bow and blandest smile, saying I was glad if I had ever been of any service to him then said (aside in sotto voce), 'Let Noah Webster come west and take care of his own fame.'"

Fifty-two years have not obliterated the memories of that speech, which I could almost repeat verbatim, and I join with Mrs. Kirby in saying, "Woodman, spare that tree", and in requesting that the street be called Webster.

Wm. J. Rutledge.

Mr. Rutledge was a very well known M. E. minister, and Chaplain of the 14th Illinois infantry in the Civil War. He was also one of the originators of the G. A. R.

## Rippling Rhymes

## SONGS AND SUCCOTASH.

When I'm not toiling at my lyre, producing thrilling waves of sound, I'm busy as a house afire, in my small plot of garden ground. When I've turned out an anthem sweet, designed to soothe men's troubled souls, I spade the dirt around a beet, and teach my beans to grow in pole. A bard may write, perchance, some soaring screeds, but to his duty he's untrue if he neglects to pull the weeds. For what this country needs just now, when everything kerflummixed stands, is not the product of the brow—it is the product of the hands. Too many bask on beds of ease, and write or sing or paint or play, when they should hoe the stringless peas and pluck the fragrant kale of hay. If I were young I'd soak my lyre, and quit this idle graft of song, and in the furrow I'd respire, or which up elm the whole day long. But I am old and full of lard, and when I've worked an hour or three, the neighbors lead me from the yard and fan me with a cedar tree. And so I toot the poet's horn, but when I've earned a sawbuck green, I strive to grow an ear of corn, a carrot or a lima bean.

## BUYS FARM NEAR MODESTO

G. J. Dowell of Franklin has recently sold to Henry Kohrs of this county the Henry Ortmann farm near Modesto. This is a well improved farm of 160 acres and the price paid was \$275 per acre. Rowe Hicks has been the tenant on this farm and he came to Morgan county Monday and thru Mr. Dowell arranged for the leasing of the L. S. James farm in Woodson precinct.

## With the Sick

The little Gibson girl was about the same yesterday. Her injuries were very severe but it is hoped she will pull through. She is at Passavant hospital.

Mrs. Arenz of Arenzville, is a patient at Our Savior's hospital and very sick.

Henry Walbaum brought his daughter home yesterday to have her tonsils removed.

Isaac Crabtree underwent a serious operation at Passavant hospital yesterday. A substance was removed from his face. At last accounts he was doing as well as could be expected.

Miss Helen Rousey of Murrayville was brought to Passavant hospital yesterday to have her tonsils removed.

## RETURNS FROM VISIT WITH FRIENDS IN WEST

Mrs. Theodore Lukeman Spent Six Weeks in Colorado, Kansas and Missouri.

Mrs. Theodore Lukeman has returned home after a six weeks' visit with relatives and friends in Colorado, Missouri and Kansas. The first three weeks she spent at Denver, with her aunt, Mrs. Effie Cox, formerly of Jacksonville. The tramway strike interfered somewhat with sight seeing but the mayor of the city soon had autos of every description taking the people to their destinations.

Mrs. Lukeman had a first hand view of what a mob will do, being only a few feet from Fifteenth street where the strikers destroyed a street car which was being driven back to the barns.

A short time was spent at the home of Dr. E. L. McKenzie in Colorado Springs. Mrs. McKenzie is the daughter of Mr. and Mrs. William Rees of Franklin. Later Mrs. Lukeman was a guest at the home of her son, Lloyd Lukeman, in Missouri, being present at the marriage of their foster daughter, Margaret, to Raymond Hocker of Drexel, Mo.

The crops in Missouri are extra fine this year, oats making from 60 to 90 bushels per acre and corn the best for years.

The last week of the visit was spent at the home of Gus, Nero, Sam and Lee Copp in Kansas. The crops in Kansas are fine, the corn prospered beyond about the best ever. Mrs. Lukeman returns with pleasant memories of her trip but she thinks Morgan county is, after all, the best place in which to live.

## WILL LOCATE HERE.

Mr. and Mrs. W. W. Schrag have returned recently from an automobile trip to Oconomowoc, Wis., where they spent several weeks with relatives. They also visited other Wisconsin cities and thoroughly enjoyed the outing. Road and weather conditions were favorable for the trip.

Mr. Schrag's many friends will be glad to know that he is to remain here as a resident. He will represent the Security Life Insurance Co. in five counties and within a short time will open an office here.

It requires ability, time and experience to enable a salesman to be of assistance to a customer, when it comes to deciding on the style hat best suited for him to wear. Patrons of FRANK BYRNS Hat Store secure this service with no additional expense.

LAND PRICE RECORD BROKEN Some people think land in this locality has reached its limit in valuation. However, a study of real estate conditions in other counties of the state where the soil is of good quality shows much higher valuations. A newspaper clipping which recently came to notice records the sale of a 40 acre tract of land near Washburn in Woodford county in northern Illinois, at \$742.50 per acre. The purchaser was J. A. Schoon and the land was without improvements but of the very best quality of soil.

## GET ACQUAINTED WITH YOUR BODY

A great deal of physical distress is the result of an interference with Nature's way to keep the body in health. For this reason the more one knows about the body the better chance there is to resist disease and enjoy health.

The human structure is so constituted that it is unnatural for disease to creep in. The nerve system is designed to give health to all organs and keep them in repair. But Chiropactic that wonderfully successful drugless health science, has discovered that disease of any part of the body, headaches, stomach trouble, rheumatism, etc., is due to an interference with the flow of nerve energy to these affected organs, caused by the pressure of the bones of the spine on certain nerves. The Chiropactor detects defects in the spine and by scientific adjustments relieves the pressure and removes the cause of the trouble.

When the distribution of energy is restored to normal, the weak and diseased organs are again supplied with sufficient power and the natural healing forces build up and strengthen them. Health follows naturally. Every progressive, thinking man and woman should know about

# CHIROPRACTIC

## THE BETTER WAY TO HEALTH

and learn more of the mechanics of the human body. Such knowledge will be great benefit now and in the future, and especially when illness threatens. Chiropactic (KI-RO-PRAK-TIC) has helped thousands back to health and strength, and it will help you and your loved ones and friends. Information gladly given.

Member the ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited to this paper.

VALUABLE PUBLICITY: Perhaps it is just as well that Gov. Cox made his sensational charges about alleged Republican campaign expenses. In this way the Republican managers have been given a lot of publicity for the real campaign plans and have centered public interest on these plans in a way that would not otherwise have been possible.

PINCHOT IN LINE: Gifford Pinchot, Progressive of the Progressives, has come out in

open endorsement of Senator Harding. This nearly completes the list as practically every leader in the old Progressive movement is now aligned with the Republican party. In nearly every instance these leaders have given publication to the reasons for the "faith that is within them." They have come out for Harding and Coddie because they believe by so doing they are taking into account the best interests of the nation.

MR. CUMMINGS AS A WITNESS: Mr. Cummings until a few weeks ago chairman of the Democratic national committee, is certainly fair-minded. He doesn't hesitate to say that from the evidence produced the Republican campaign fund plan cannot be justly criticized. Mr. Cummings has given the G. O. P. leaders a clean bill of health.

A DEAD WEIGHT: Mayor Thompson, it is said, will make no more downstate speeches. This fact, taken with others, which have leaked out, indicates that the Thompson slate is slipping as the candidates on that slate are finding that Thompson-

ism is a greater political burden than they can carry. In Chicago the mayor has a big influence but downstate his word decried looms up in a way which cannot be offset with denials or explanations or incriminations against opposing candidates.

THE VALUE OF AN AUDIT: The audit of the county books as just made public reveals nothing of a sensational nature. However, the report does give point to the fact that the county expenditures have been certainly climbing and last year exceeded the income by a wide margin. There are benefits, however, from any accurate audit of the books of a public officer because of the greater knowledge that people have of the affairs which concern them and about which they know little.

It would be a fine thing for the public service if the law required an audit of county records at the close of each official's term. There should be some provision for an audit and for the discharge of the official bondsmen after a reasonable length of time. There are cases on record, especially in state affairs, where years after an officer has been dead an audit of records has shown discrepancies and bondsmen have been required to pay. In one instance in mind the bondsmen had been dead for years and the repayments required by the state were made from the estates of the bondsmen.

apathy of the people on a question of this kind is marvellous to behold. A petition suggesting the action taken was filed a number of weeks ago and that fact was stated in local papers. Then the call for the hearing Monday afternoon was made and publicity given to that fact. The question to be considered involved an addition of \$50,000 to \$60,000 to the taxes of Jacksonville and South Jacksonville.

Yet at this hearing only one woman and eight men appeared to show their interest in the proposal. Many people have the habit of taking no part in elections and then finding fault with the officers for their actions. So in the present instance when the road tax is paid there will be plenty of protests made. But these same protesters were not sufficiently interested to attend the public hearing.

AN INTERVIEW WITH HARDING: Sherman Rogers, special industrial correspondent of "The Outlook" called on Senator Harding and requested an interview on the labor question and during a call of two hours all sorts of questions were answered by the distinguished candidate for president. Nothing at all was kept back and all interrogatories were fully answered. He said that long before the interview was ended he had not only formed the firm opinion that the senator was four square on all vital issues concerning labor and the farmer but he realized that the candidate possessed two qualities that would make him a great president; a cool head and a warm heart.

Senator Harding said he had faith in the men and he believed in labor's fairness when treated squarely and given an opportunity to become familiar with facts pertaining to their vocations. Working men should be made familiar with conditions so that when a radical comes along grossly misrepresenting conditions the working man can intelligently refute his statements.

The country has not been careful enough to extend the kind hand to foreigners coming to our shores. If the government had taken as much pains to inform the newcomers regarding the constitution and American ideals as the radicals have to misrepresent conditions to the new arrivals there would be far less trouble than now.

The candidate manifested much interest and his answers proved that he was thoroughly familiar with the labor problem and his conclusions were based on a sympathetic understanding far keener and broader than that of many prominent industrial captains with whom the correspondent had talked within the past six months. The correspondent said if Mr. Harding is elected the country will not lack strong, decisive leadership.

Mr. Harding said the deplorable condition of our railroad system should convince the most radical labor leader that returns to railway management must be such that enough capital will be enlisted for the purpose of adequate maintenance and construction and the capitalist must realize that labor must have an adequate wage function properly and guarantee continuity of service.

The burden of the interview showed that the senator contended for more thorough understanding between capital and labor. He believed in unions and collective bargaining when at all possible and on the other hand the non-union man should have the chance to work too if he wants it.

Concluding the correspondent said the senator's views on labor questions and his sympathetic understanding of labor problems far exceeded his expectations and he believed that the candidate is a sincere friend to labor deserving the unstinted confidence of every working man in America.

OLD JACKSONVILLE

"BLACK DAN"

By Ensley Moore

(Member Illinois State Historical Society)

The Daily Journal of August 31, 1889, had the following regarding the visit here in June, 1837 of—

"Daniel Webster

I heartily endorse the request of Mrs. Judge Kirby given in your last issue with regard to the "Webster street elm." It was my privilege to hear Mr. Webster's speech in 1837, and he being the first national celebrity I had seen (for as yet Baker, Browning, Douglas and Lincoln were not known abroad) it made a deep impression upon me. From the summit of the Alleghenies in looking westward he "had heard the hum and tread of coming millions. At Pittsburgh, Wheeling, Cincinnati and St. Louis he saw men building the smoke crowned cities in a day, that would roar for ages with the din of trade. Never have I heard anyone so well describe the beautiful Ohio, the majestic Mississippi and the placid Illinois rivers, and that but yesterday their glory was dark forests, wild flowers and rank grass. Their sole navigators, Indians, who waked their echoes with the war whoop and hunted alternately wild beasts and men. These rivers destined to float a nation's wealth and flow unfettered to the sea. Little did he then dream of the chain we would break at Vicksburg, on July 4th, 1863. I was then a school boy of 17 years, but no word of that grand speech was lost, and no wonder, for such men as Gov. Duncan, Peter Akers, Pres. Sturtevant, Josiah Lamborn, Murray McConnell, Newton Cloud and John J. Hardin cheered, laughed and cried.

I was surprised that one so dig-

nified as Mr. Webster could tell an anecdote so well—one alone I will give. I think humor in him affected us the more as it seemed in some sense perpetrated, or not fully in keeping with his gray head and very intelligent face.

But to the anecdote. "Western people are bound to become cosmopolitan, they will take up greatness by absorption from your immense rivers and plains, and thus cast off the limited conventionalities of older communities. I was much impressed yesterday to see crowds of men come about our packet on the Illinois river from what seemed mere sociability. They rode with us 10, 20, even 30 miles, possibly at the expense of walking home again. One middle aged man rushed up to me, pushed aside the crowd, grasped my hand firmly in both of his. (O, I can feel the pressure yet!) and exclaimed, 'God bless you, Mr. Webster. I can never express my obligation to you for the privilege of learning to spell and read in your spelling book.' I gave him my best bow and blandest smile, saying I was glad if I had ever been of any service to him then said (aside in sotto voce), 'Let Noah Webster come west and take care of his own fame.'"

Fifty-two years have not obliterated the memories of that speech, which I could almost repeat verbatim, and I join with Mrs. Kirby in saying, "Woodman, spare that tree," and in requesting that the street be called Webster.

Wm. J. Rutledge.

Mr. Rutledge was a very well known M. E. minister, and Chaplain of the 14th Illinois infantry in the Civil War. He was also one of the originators of the G. A. R.

Rippling Rhymes By Wait Mason

SONGS AND SUCCOTASH.

When I'm not toiling at my lyre, producing thrilling waves of sound, I'm busy as a house afire, in my small plot of garden ground, when I've turned out an anthem sweet, designed to soothe men's troubled souls, I spade the dirt around a beet, and teach my beans to grow on pole. A hard may chant an ode to two, may write, perchance, some soaring screeds, but to his duty he's untrue if he neglects to pull the weeds. For what this country needs just now, when everything's perkumfuzzed, stands, is not the product of the brow—it is the product of the hands. Too many bask on beds of ease, and write or sing or paint or play, when they should hoe the stringless peas and pluck the fragrant bale of hay. If I were young I'd soak my lyre, and quit this idle farce of song, and in the furrow I'd prespire, or watch up elm the whole day long. But I am old and full of lead, and when I've worked an hour or three, the neighbors lead me from the yard and fan me with a cedar tree. And so I toot the poet's horn, but when I've earned a sawbuck green, I strive to grow an ear of corn, a carrot or a lima bean.

## SPENT A FORTUNE IN SEARCH FOR HEALTH

Was Almost a Nervous  
Wreck When She Began  
Taking Tanlac, Says Mrs.  
Lontz, But Troubles are  
Over Now.

"I was almost a nervous wreck at the time I began taking Tanlac, but in a little more than a month it has made me a well and strong woman," said Mrs. E. E. Lontz of 808 Locust street, Bloomington, Ill.

"For more than a year I was in dreadful health, suffering with stomach, kidneys and nerves. I had a very poor appetite and was troubled a great deal with gas and bloating. I had a continual pain across my back right across my kidneys and sometimes all the way up to my neck. My nerves were simply all to pieces, I was

subject to terrible sick headaches and at times felt that I just couldn't keep from screaming. My whole system was badly run-down and I felt weak and draggy all the time.

"As soon as I started on my second bottle of Tanlac I began to improve until now I am enjoying perfect health. I have a splendid appetite and it doesn't matter what I eat it agrees with me. My kidneys are in good condition and the pains have all gone from my back. My nerves are as steady as they ever were and I am free from those awful headache spells. I feel better and stronger in every way and am glad to do what I can to tell suffering people about Tanlac."

Tanlac is sold in Jacksonville by Coover & Shreve and by the leading drug store in every town. —Adv.

### MINSTREL PROGRAM AT GRAND THEATER

Lasses White All Star Minstrels Appeared Before Large Audience Tuesday Night—First Attraction Under New Lessee.

Lasses White all star minstrels appeared at the Grand Opera House last night before a large audience. This was the first attraction Manager Sibert has presented on behalf of the new lessee, Mr. Fischer, and it thoroughly pleased the audience. The old time minstrel program was changed to some extent. The jokes were not quite so numerous and there was more of music and specialties.

Lasses White is very clever himself and he has gathered together in this troupe associates who qualify quite well as "all star" minstrels.

The stage settings were more elaborate than usually presented and in fact in every detail this minstrel performance was well ordered and well staged. The final scene was "Derby day in Blackville" and brought to a hilarious close the numerous program events.

Also Prevented Pickets from Extending Walkout to More Than One Steamer.

Boston, Aug. 31.—Heavy showers which stopped work on the docks prevented further efforts of pickets to extend to more than one British steamer a walkout of longshoremen today in sympathy with Ireland. The pickets, numbering four women and two men made their rounds of the piers and succeeding in persuading the sixty longshoremen who were loading the Leyland Liner Nitonian to quit work.

By the time the pickets had reached the other piers it was raining hard and the longshoremen already had suspended work on that account. It is expected that the pickets will renew their efforts tomorrow.

over-enthusiasm, or "just plain bull."

Under questioning by Chairman Kenyon, Republican of Iowa, Mr. Upham said that the list of more than thirty thousand contributors, which he turned over to the committee represented the double purpose to popularize the campaign fund and at the same time get many stockholders, knowing that stockholders would vote the ticket.

### British Propaganda

Fred A. Britten, member of the national house of representatives from a Chicago district was called to give support to published charges that British government funds were being used to further the Cox campaign. He told the committee that a fiction story being circulated free to country newspapers by the Western Newspaper Union, was, he believed, paid for by British interests. The story entitled "Uncle Sam of Freedom Ridge" was said to be propaganda for the league of nations and the newspaper syndicate's offer of it to the papers bore an endorsement of the story purporting to be by President Wilson. He said he had no further evidence.

The committee, called Miles H. McMillan, Chicago manager of the Western Newspaper Union but he was unable to throw light on the question of who was financing the free distribution of the story. Senator Reed brought out that the probable cost of the venture would be from \$27,000 to \$30,000.

George H. White, chairman of the Democratic national committee was then put on the stand and testified that Paul Cochran, publicity director of the Democratic committee, had proposed to him that the committee distribute the story thru the newspapers.

Mr. White said he favored the project if the cost was not too great but never approved Mr. Cochran's plan.

"You don't know who arranged for it, who is paying for it?" chairman Kenyon asked. "Nobody on the committee to my knowledge has arranged personally," the witness replied.

Senator Edge asked Mr. White if the plan would not violate the corrupt practices act and Mr. White replied:

"Well I would want to take that up with an attorney. I very frankly haven't thought of it and I will take that under consideration."

Mr. White, it was announced, will be summoned to the stand again tomorrow to give a full account of the Democratic committee's affairs. He probably will be followed on the stand by Wilbur Marsh, treasurer of the Democratic national committee.

### RECEIVES RANK OF COLONEL

Springfield, Ill., Aug. 31.—William E. Swanson, Chicago, lieutenant colonel of the 11th regiment, Illinois National Guard, was raised to the rank of colonel by Adjutant General Dickson today. Col. Swanson succeeds James E. Stuart, who was recently made brigadier general of the Second Brigade.

### CHARGED WITH MURDER OF HOTEL CLERK

Chicago, Aug. 31.—Gerald A. Stack of Lander, Wyo., who has been staying with his wife and two children at a downtown hotel here, is under arrest today charged with the murder of Paul Brown, a clerk. The murder is believed to have followed a quarrel over a girl.

### "Y" MAN RESIGNS

Decatur, Ill., Aug. 31.—R. E. Brannan, physical director of the local Y. M. C. A., has resigned to accept the position of athletic director of Ottawa university, Ottawa, Kansas. Brannan was a former star athlete at the Kansas school.

### IOWA SHORT OF COAL

Des Moines, Iowa, Aug. 31.—Practically every small town in the state with the exception of those that are mining centers is almost destitute of coal, according to answers to a questionnaire sent out by the state transportation committee. Most of the larger towns fare better.

He told the committee that a fiction story being circulated free to country newspapers by the Western Newspaper Union, was, he believed, paid for by British interests. The story entitled "Uncle Sam of Freedom Ridge" was said to be propaganda for the league of nations and the newspaper syndicate's offer of it to the papers bore an endorsement of the story purporting to be by President Wilson. He said he had no further evidence.

The committee called Miles H. McMillan, Chicago manager of the Western Newspaper Union but he was unable to throw light on the question of who was financing the free distribution of the story. Senator Reed brought out that the probable cost of the venture would be from \$27,000 to \$30,000.

George H. White, chairman of the Democratic national committee was then put on the stand and testified that Paul Cochran, publicity director of the Democratic committee, had proposed to him that the committee distribute the story thru the newspapers.

Mr. White said he favored the project if the cost was not too great but never approved Mr. Cochran's plan.

"You don't know who arranged for it, who is paying for it?" chairman Kenyon asked.

"Nobody on the committee to my knowledge has arranged personally" the witness replied.

Senator Edge asked Mr. White if the plan would not violate the corrupt practices act and Mr. White replied:

"Well I would want to take that up with an attorney. I very frankly haven't thought of it and I will take that under consideration."

Mr. White, it was announced, will be summoned to the stand again tomorrow to give a full account of the Democratic committee's affairs. He probably will be followed on the stand by Wilbur Marsh, treasurer of the Democratic national committee.

## DR. E. B. LANDIS GOES TO CARBONDALE

Well Known Minister Has Accepted Pastorate of Strong Southern Illinois Church.

Dr. E. B. Landis, who recently withdrew from his work as field secretary for the Interchurch World Movement, will leave Thursday with his family for Carbondale. Dr. Landis has accepted the pastorate of the First Presbyterian church there and will enter upon his duties next Sunday. The church has a membership of more than 300 and besides is in charge of a mission church. The most largely attended state normal school in Illinois is located at Carbondale and many of the instructors and students of the school are associated with the Presbyterian church.

While pastor of Westminster church here Dr. Landis devoted particular attention to the young people's work and had a very large class in the Sunday school, made up in the main from local colleges. It is known that his successful work in this line was one of the reasons that made the Carbondale people desirous of securing his services.

First Charge at Neoga  
Dr. Landis came to Jacksonville four and a half years ago from McLean county. He had previously been at Mattoon and his first charge was at Neoga. For a period of twenty-one years he has been in the Illinois ministry, constantly advancing in the work. He took his theological course at Cumberland university, Lebanon,

Tenn., and afterward spent a year in study at the University of Chicago. He returned to Lebanon two years ago to receive a D. D. degree.

It was entirely on his own volition that Dr. Landis gave up the Westminster pastorate some months ago in order to become field secretary in the Interchurch World Movement. The changes in plans for that movement released him and he accepted the call to the large and promising work at Carbondale.

Both Dr. and Mrs. Landis will be greatly missed in Jacksonville and their friends here will join in wishing them well as they go to their southern Illinois home. Aside from his active church work Dr. Landis has found time for civic work along various lines and he has been counted a useful and prominent citizen.

Starting Thursday, the family will drive to Neoga where Mrs. Landis and two sons will spend a number of days with relatives. Dr. Landis will proceed to Carbondale to await the arrival of his car of household goods.

## DR. E. B. LANDIS GOES TO CARBONDALE

Well Known Minister Has Accepted Pastorate of Strong Southern Illinois Church.

Dr. E. B. Landis, who recently withdrew from his work as field secretary for the Interchurch World Movement, will leave Thursday with his family for Carbondale. Dr. Landis has accepted the pastorate of the First Presbyterian church there and will enter upon his duties next Sunday. The church has a membership of more than 300 and besides is in charge of a mission church. The most largely attended state normal school in Illinois is located at Carbondale and many of the instructors and students of the school are associated with the Presbyterian church.

While pastor of Westminster church here Dr. Landis devoted particular attention to the young people's work and had a very large class in the Sunday school, made up in the main from local colleges. It is known that his successful work in this line was one of the reasons that made the Carbondale people desirous of securing his services.

First Charge at Neoga. Dr. Landis came to Jacksonville four and a half years ago from McLean county. He had previously been at Mattoon and his first charge was at Neoga. For a period of twenty-one years he has been in the Illinois ministry, constantly advancing in the work. He took his theological course at Cumberland university, Lebanon,

Tenn., and afterward spent a year in study at the University of Chicago. He returned to Lebanon two years ago to receive a D. D. degree.

It was entirely on his own volition that Dr. Landis gave up the Westminster pastorate some months ago in order to become field secretary in the Interchurch World Movement. The changes in plans for that movement released him and he accepted the call to the large and promising work at Carbondale.

Both Dr. and Mrs. Landis will be greatly missed in Jacksonville and their friends here will join in wishing them well as they go to their southern Illinois home. Aside from his active church work Dr. Landis has found time for civic work along various lines and he has been counted a useful and prominent citizen.

Starting Thursday, the family will drive to Neoga where Mrs. Landis and two sons will spend a number of days with relatives. Dr. Landis will proceed to Carbondale to await the arrival of his car of household goods.

### ILLINOIS CONFERENCE

Thomas V. Hopper has received notice that the meeting of the Laymen of the Illinois Conference will convene on Friday, Sept. 10th, at 1:30, instead of the forenoon as previously announced. The Lay representatives of the churches adjacent to Jacksonville will please note this change, as it will make a more favorable time for departure for the meeting.

E. J. O'Brien has returned to Peoria after a visit with relatives here.

## MRS. COX IN JAIL ON CONTEMPT CHARGE

As noted recently, Judge Samuel issued an order from the county court directing the arrest of Mrs. Harriet Cox on a contempt charge. Mrs. Cox is now at the county jail and it is held there because of her refusal to file inventory in the estate of Charles Cox, of which she is executrix. Judge Samuel has tried in various ways to have Mrs. Cox file report in accordance with law, but she has persistently refused to do so.

It is understood that she also held a sale of personal property without authorization from the court. Eighty acres of land is included in the assets of the estate and Mrs. Cox has declined in any way to list this property.

After making various efforts to secure the necessary report and on petition of J. T. Mutch who has a claim against the Cox estate, the order for commitment in jail in contempt proceedings was made. So far as known this is the only case of the kind in the records of Morgan county probate court at least for a long period.

It makes all the difference in the world the way a hat looks and feels on your head. That is why FRANK BYRNS shows such a big variety of styles and colors for this fall.

### MISS RUSTMEYER DIES IN BLOOMINGTON

Relatives here have received notice of the death of Miss Edith Rustmeyer, which occurred at her home in Bloomington Monday evening. The deceased was twenty-three years of age and was the daughter of Mrs. Hannah Rustmeyer. Funeral services will be held at 9 o'clock Thursday morning from the Holy Trinity church in Bloomington and interment will be made in Calvary cemetery there.

A number of local relatives of the deceased will attend the funeral services Thursday morning.

## CORNER STONE WILL BE LAID SEPT. 16

Arrangements Have Been Made With the Contractors So That Building Will Not Be Delayed—Program Will Be Given By Local People.

Superintendent of Schools H. A. Perrin announced last night that plans had been completed whereby the cornerstone of the new high school building will be officially laid at 3:30 o'clock on the afternoon of September 16.

A few days ago it was thought it would be impossible for the contractors of the building to wait. However, the committee in charge was able to make arrangements whereby the cornerstone laying could be held on the date named. This will not interfere with the progress of the building, Mr. Perrin said.

The exercises will be under the direction of Daniel W. Fitzgerald, Grand Master of the Grand Lodge of Illinois A. F. and A. M. He will be assisted by a number of other state officers and also by members of the local Masonic lodges.

Following the corner stone laying a brief program will be given. This will be participated in by local people.

### ILLINOIS COLLEGE

Francis E. Taylor, a Graduate of Illinois college visited Jacksonville yesterday. He will teach mathematics, a subject in which he is very proficient, at St. John's Military Academy in Wisconsin, the coming year. This will not be his first experience in teaching as he engaged in the work last year at Dallas City, Ill.

John R. Martin expects to leave Jacksonville Wednesday for Auburn, Ill., and will be in charge of the science department of the high school of that city. Mr. Martin graduated at Illinois college in 1920, with science as his major study. This training with the practical work he did during the war in the radio service, has qualified him admirably for the work. The schools of DeKalb have employed Thomas R. Davis as a teacher in mathematics for this year. Mr. Davis, a former Illinois college student, was superintendent of the schools in Dallas City last year.

### Y. M. C. A. CAMPAIGN BEING PLANNED

The district secretary of the Y. M. C. A. of Illinois, A. L. Mayer, of Decatur, held a conference with Secretary J. S. Faley of this city Tuesday. As Mr. Mayer has been here a few times previous to this visit, plans are already being laid for a successful campaign for funds, to be carried out some time in the near future.

The state officers are much interested in the Jacksonville Y. M. C. A. and the new building program. The spirit of cooperation existing between Jacksonville and the state organization will enable the two to work together in an advantageous way.

If arrangements work out as expected it is probable that after plans for the location of the new building have been decided on, a vigorous campaign will begin to secure the necessary funds for the building.

### ROAD DISTRICT FINDING IS MADE

This City and South Jacksonville Made Part of Number Seven

The board of county commissioners has granted the petition providing that Jacksonville and South Jacksonville shall become a part of road district No. 7.

As already noted, a hearing was held on this petition Monday afternoon at 2 o'clock. The whole subject was thoroughly discussed by the commissioners with the citizens present. Yesterday the board entered the final order whereby the city and village become a part of the district. It is understood that the granting of the petition under the law takes immediate effect and that the city and village are now included in the district.

John McDonald is the commissioner of No. 7 and will serve until the spring of 1922. He will accordingly handle for at least one year the additional fund which can be raised for road improvement purposes because of the addition made to the property value of the district. The law makes it possible to levy a 66c tax on the \$100 of valuation. This means that in the city and village if the maximum tax is levied that between \$55,000 and \$60,000 will be raised. One-half of this fund will pass into the hands of the road commissioners and the other half will pass to the council of Jacksonville and the board of trustees of South Jacksonville.

The formal order of the board where the territory is added to the road district reads as follows:

In the matter of changing the boundary line of Road District No. 7 of Morgan county, Ill.

And now on this date the 30th day of August, A. D. 1920, the county commissioners in and for Morgan county held a public hearing at 2 p. m. to hear arguments for and against the changing of the boundary line of Road District No. 7 as set forth in petition filed August 18th, said change to include Road Districts Nos. 14 and 15 in Road District No. 7 as provided by Section 41 of the road and bridge laws of the state of Illinois. At this meeting only one objector was present and several were in favor of this change.

It is hereby ordered by the county board that the boundary line of Road District No. 7 be changed to include Road Districts Nos. 14 and 15 in Road District No. 7. The boundary lines of Road Districts No. 14 and 15 are shown in Book P, Page 376 of the County Court Record. Road District No. 7 as amended shall include all of Township 15, North, Range 10, west of the Third Principal Meridian, Morgan county, Ill. It is further ordered that Road Districts No. 14 and 15 are hereby declared vacated as road districts.

### MAKING A LONG JOURNEY

W. R. Smith and family stopped in Jacksonville yesterday en route to California. Mr. Smith lives in Fresno and is cashier of the tax collector's office there. In his journey from Fresno to Fremont, Ohio, he followed the Lincoln Highway to Omaha, Neb., and the River to River road from there to Des Moines, Iowa, and took the Great White Way to Chicago Heights, then followed the Cannonball Trail in to Fremont. They spent a month in Fremont and during this time took trips to Detroit, Cleveland and other cities. They have been camping at nights and have in a way, been roughing it. They reported the roads mostly good and said the crops of the corn belt were excellent, especially in Indiana and Iowa. They expected to camp for the night just west of Jacksonville and expected to arrive in Fresno soon, after having had a delightful vacation.

### CHAUTAUQUA DATES TO BE CHANGED

Conflict With State Fair to be Avoided—Revenue Tax on Gate Receipts Over \$800.

Practically all of the chautauqua tents have been removed from Nichols park, altho the rain Tuesday interfered with the work to some extent. The directors will not be able to make a complete statement for weeks to come, but it is understood that the receipts this year will probably be slightly in excess of expenditures. There would have been a considerable profit except for the unfavorable weather encountered a part of the time.

On the opening day when Senator Kenyon made an address the bad weather undoubtedly cut down the attendance by several hundred. The state fair operating on the same dates also served to take away some patronage.

In order to avoid conflict next year F. J. Hehl wrote to Charles Adkins and found that the state fair of 1921 would probably be the last few days of August. The directors of the chautauqua will therefore change the tenth assembly date to a period before or following the fair.

One considerable item of expense that the chautauqua management must meet is the war tax on tickets. Yesterday a draft for \$809.10 to pay this tax was forwarded to the revenue collector's office in Springfield.

## MAKING READY FOR ODD FELLOWS PICNIC

Soup and Barbecuing Started Last Night—Indications Point to Large Crowd if Weather Holds Good.

Franklin, Aug. 31.—The preparation of the burgo soup and barbecuing of the meat for the Big Odd Fellows picnic to be held here tomorrow was started tonight.

Thomas Htnry of Nortonville is in charge of the soup making and George Jolley, the well known butcher of this city, is barbecuing the meat. Five hundred gallons of soup is in the making and there also will be an ample supply of meat.

The weather man has promised clear weather for tomorrow. If it is clear a great crowd of Odd Fellows and their friends from all over the county are expected to attend.

## Births

Born Sunday to Mr. and Mrs. A. L. Lukeman, residing near Franklin, twin daughters.

### DEMPEY PUT IN HARD DAY'S WORK

BENTON HARBOR, Mich., Aug. 31.—Jack Dempsey was in a punching mood today and for the first time since he started training for his championship match with Billy Miske here Labor Day he knocked out one of his sparring partners, Soldier Jack Riley, of the forty-seventh infantry.

Riley lasted a little over a round with the champion. He was groggy at the end of the first round and had been boxing less than a minute in the second when Dempsey landed a short right to the chin and Riley took the count. The champion then boxed with Bill Tate for two rounds, Panama Joe Gans, for two rounds and Harry Farrell for two more. Miske, wearing a felt headgear to protect his ears and the cut over his left eye, went after George Wilson, a negro light heavyweight in murderous style, giving him a severe pummeling for two rounds. Later he punished John Wagoner of Chicago, for two rounds and Homer Smith, Kalamazoo, Mich., for one round.

Come to the annual chicken fry at Woodson Christian church September 2.

G. M. Davis and W. T. Briggs of Shelbyville were numbered among the business visitors in the city Tuesday.

Mr. and Mrs. S. A. Gibb of Armstrong, Mo., were calling on friends in the city yesterday.

dition and shines like a piece of highly polished wood.

## The Killing Air of the Desert

Across the hot sands blow the parched dry winds—sucking every drop of moisture from plant and animal. It fans the man's face and body—drying up his skin, his lips—his very life.

## Compare the Air in Your Home

The average home has less than one degree of humidity—while the Sahara Desert averages six degrees

Your stove burns up the moisture and the oxygen in the air. This dry air in turn sucks the moisture from the bodies of you and your family—reducing your vitality—impairing your health—even endangering your lives.

## Moisten the Air as You Warm It

Banish your unhealthy, dirt-producing stoves. Install, instead, the one heater that, in addition to warming every nook and corner of your home, fills the air with life-giving moisture (humidity). These

in the basement—out of the way—with but one register, heat every room in the house—whether there be two or twelve—to a temperature of 70 degrees in even the coldest weather. One fire does this—where three or four stoves fail.

But in addition, the Air Washer-Humidifier System washes and moistens the air as it is warmed.

The Hero Pipeless Furnace excels all others in this one big vital feature; for these vapor pans cover the entire bottom of the air chamber and all air must pass over them.

Thus the dirt, dust, lint, fibers, odors and gases are washed out and the proper amount of moisture is added to the clean pure air.

No Deadly Air in a Hero Heated Home

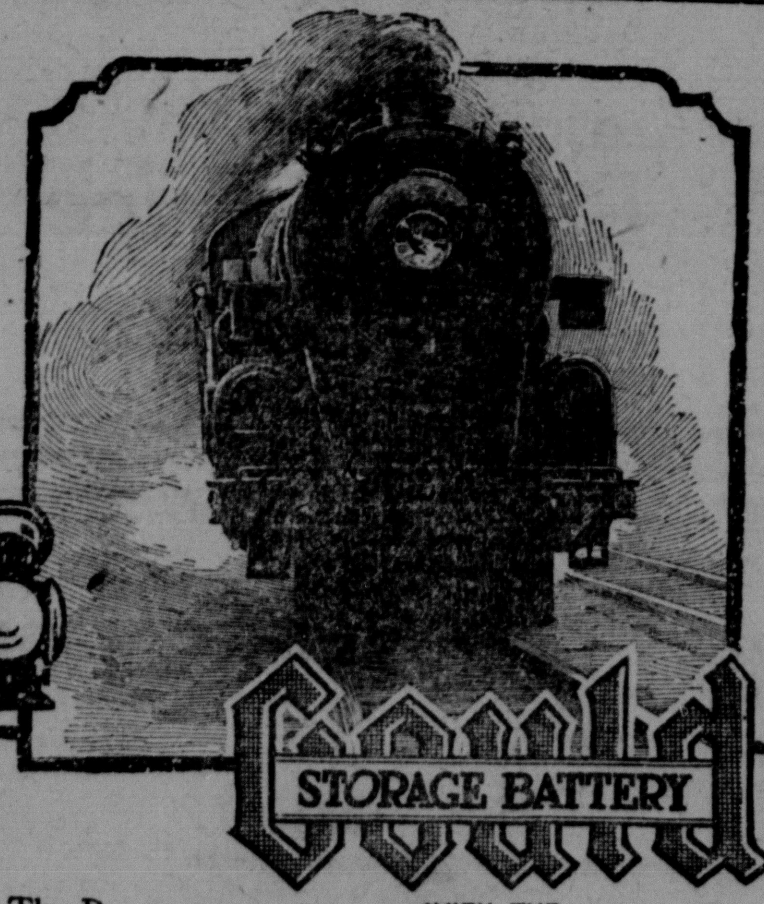

Those who have Hero—moistened Heat know from experience that they save fuel—for a temperature of 65 degrees with the proper moisture is more comfortable than 72 degrees when the air is dry. Let us demonstrate to you the other advantages of the Hero Pipeless Furnace.

## The Battery For Your Car

Dreadnaught Plates, the strong power-producing heart of the Gould Storage Battery, pass the critical test of railroads. Railway signal systems are Gould operated—human life hangs on their reliability.

What better endorsement can you ask of the ability of a battery with these rugged plates to deliver plenty of power to the starting and lighting system on your car.

They live long. The active material is made to cling in these plates with bulldog tenacity by the Gould hardening process. Yet there is no loss of electrical capacity as a result.

### Gould Service on all Batteries

**DEMPEY PUT IN HARD DAY'S WORK**  
BENTON HARBOR, Mich., Aug. 31.—Jack Dempsey was in a punching mood today and for the first time since he started training for his championship match with Billy Miske here Labor Day he knocked out one of his sparring partners, Soldier Jack Riley, of the forty-seventh infantry.

Riley lasted a little over a round with the champion. He was groggy at the end of the first round and had been boxing less than a minute in the second when Dempsey landed a short right to the chin and Riley took the count. The champion then boxed with Bill Tate for two rounds, Panama Joe Gans, for two rounds and Harry Farrell for two more. Miske, wearing a felt headgear to protect his ears and the cut over his left eye, went after George Wilson, a negro light heavyweight in murderous style, giving him a severe pummeling for two rounds. Later he punished John Wagoner of Chicago, for two rounds and Homer Smith, Kalamazoo, Mich., for one round.

## The Killing Air of the Desert

Across the hot sands blow the parched dry winds—sucking every drop of moisture from plant and animal. It fans the man's face and body—drying up his skin, his lips—his very life.

## Compare the Air in Your Home

The average home has less than one degree of humidity—while the Sahara Desert averages six degrees

Your stove burns up the moisture and the oxygen in the air. This dry air in turn sucks the moisture from the bodies of you and your family—reducing your vitality—impairing your health—even endangering your lives.

### Moisten the Air as You Warm It

Banish your unhealthy, dirt-producing stoves. Install, instead, the one heater that, in addition to warming every nook and corner of your home, fills the air with life-giving moisture (humidity). These

in the basement—out of the way—with but one register, heat every room in the house—whether there be two or twelve—to a temperature of 70 degrees in even the coldest weather. One fire does this—where three or four stoves fail.

But in addition, the Air Washer-Humidifier System washes and moistens the air as it is warmed.

The Hero Pipeless Furnace excels all others in this one big vital feature; for these vapor pans cover the entire bottom of the air chamber and all air must pass over them.

Thus the dirt, dust, lint, fibers, odors and gases are washed out and the proper amount of moisture is added to the clean pure air.

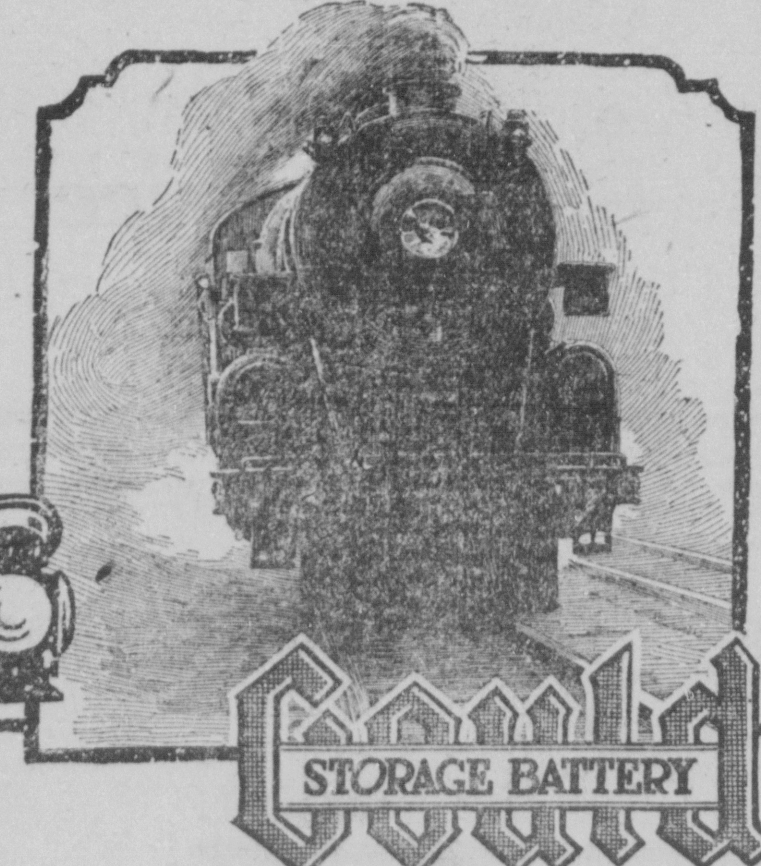

No Deadly Air in a Hero Heated Home

Those who have Hero—moistened Heat know from experience that they save fuel—for a temperature of 65 degrees with the proper moisture is more comfortable than 72 degrees when the air is dry. Let us demonstrate to you the other advantages of the Hero Pipeless Furnace.

## CALLS ON CHURCH TO INTERVENE IN STRIKES

In "Labor Sunday Message" New York Minister Points Out Duty of Church to Stand for the Right of Labor to Organize and Collective Action.

NEW YORK. — The church and the pulpit were called upon to intervene in strikes and try to compose the differences between capital and labor in a "Labor Sunday Message" issued today by the Rev. Worth M. Tippy, executive secretary of the Social Service Commission of the Federal Council of the Churches of Christ in America.

He declared that the church must stand for the right of labor to organize and take collective action under proper restraints and safeguards for public welfare and that the church should not be prevented from taking this step either by reactionary employers or by "evils in the labor movement."

**Tremendous Economic Loss.**

The Rev. Mr. Tippy pointed out that the nation had suffered a tremendous economic loss because of the strikes last year and that deeper perils lie in threatened destruction of the spirit of cooperation and good will between capital and labor.

"The church watches the deepening conflict with profound concern," he continued. "It cannot stand aloof. At whatever risk of becoming involved in the controversy it must go into the midst of contending forces, if possible between them. It must bring to bear every ounce of influence which it possesses to bring these contending groups together, and to induce them to work out permanent and effective means of cooperation."

He pointed out that there was need to devise a method by which employers and workers can get together and keep together, so as to put heart and power into production and give just returns to both groups. "If no form of labor organization is permitted and if not only strikes but labor organization itself is fought to a finish, there appears no way out of our troubles, but rather a deepening of them. We shall have an autocratic management of industry on the one side and either a kind of serfdom on the other or a militant, bitter and class-conscious organization of labor growing yearly more revolutionary. That is just the danger of the present hour.

**Cannot Be Hesitant.**

"The church cannot be hesitant here. When, as may often happen, the inclusiveness of its fellowship precludes a cooperative judgment on the part of the whole church, the pulpit must nevertheless be true to its prophetic office. The case is hopeless."

## ANOTHER BATTLE OVER CHICAGO'S LAKE FRONT

"Streeterville" About to Be Scene of Thousand and First Battle in Its History—Capt. Streeter to Again Try to Enforce His Claim to Valuable Section of Lake Front.

Chicago. — "Streeterville," in the "Deestriet of Lake Michigan," a part of Chicago's famous "Gold Coast" is about to be the scene of the thousand and first battle in its history, according to notice served on United States Marshal Bradley by Captain George Wellington Streeter, 30 year old claimant to a \$50,000,000 portion of the exclusive Lake Shore Drive section.

"Cap" Streeter and William H. Niles, one time "military governor" and commanding general of the army of the "deestriet," having notified the federal authorities that they are about to again try to enforce their claim that Streeterville is not in any state in the union, have invited the American Legion to assist them and set the date for the opening of hostilities as September 6. A letter to the Legion posts, a copy of which was also sent to Marshal Bradley, invites former soldiers to "meet me at the foot of Superior street in uniform, armed and carrying a flag, and help me by force of arms the treasonable acts of judges or stand up against a wall before a firing squad". A postscript invites the legionnaires to bring their lunch.

**Fighting Since 1886**

Captain Streeter has been fighting since 1886 to establish his claim to one of the most valuable sections of Chicago's lake front. In that year his steamship, the Tan, stranded on the beach during a storm. Captain Streeter built a breakwater about the stranded boat, 450 feet off shore and made it his home. The rapidly shifting sands filled in the space between boat and shore and added 193 acres to the city's area. To this land Captain Streeter laid claim, and in the next quarter of a century battles by the hand were fought in an effort to oust him.

On one occasion 500 police besieged Streeterville. "General" Niles proclaimed himself "military governor of the district of Lake Michigan" and with 50 men of his "escort" erected breastworks surmounted by barbed wire and stood off the police for several days, before desertions in the ranks so weakened the defending force that a lone policeman finally executed a flank attack and carried the fort.

**House Wrecked by Sheriffs**

The courts in 1915 ruled that Streeter had no title to the property and his brick castle, which had succeeded the steamboat home, was wrecked by deputy sheriffs and then burned.

In 1902 Streeter and two friends were convicted of manslaughter in connection with the death of John S. Kirke, killed in one of the frequent assaults on the castle. All were sentenced to life imprisonment, but after a few months were released.

The site of the "deestriet" is now covered by more than a dozen skyscraper apartment buildings and hotels. The land is valued at more than \$50,000,000. Many of the present owners have purchased deeds from Streeter as well as the state, in order that their occupancy may not be interfered with by the 80-year old fire-eating veteran.

Streeter's claim is based on the contention that the act creating the state of Illinois fixed the "meander line" of the lake as the boundary, and that therefore his "deestriet" was outside the state and owed allegiance to no one except the United States. The courts held, however, that Illinois extended to the center of Lake Michigan, that all land created by natural accretions of the lake belonged to the adjoining property owners; and that all land created artificially belonged to the state. The stranding of Streeter's steamship created land artificially, it was held.

## LARGE MOTOR VEHICLE SHIPMENT FROM U. S.

Department of Commerce Shows Large Export of Commercial and Passenger Cars in Fiscal Year Just Closed.

WASHINGTON. — The whole world seems to be demanding motor vehicles and is looking to the United States for its supply. Records of the Department of Commerce for the fiscal year 1920, just ended, show that automobiles and parts of automobiles valued at \$222,252,376 were shipped from this country. This was nearly nine times the total value of such exports before the war.

The number of commercial cars exported during the 12 months ended June 30 was 24,356, valued at \$11,577,684 as compared with 12,921 valued at \$33,233,485 in 1919. Passenger car shipments showed an even greater increase, the total being 115,519 valued at \$125,384,025 as compared with 1,291 valued at \$45,852,705 the year before.

The United Kingdom led in the imports of both commercial and passenger cars, taking 4,593 of the former and 17,528 of the latter. Canada was second in the matter of both types of cars taking 2,443 commercial and 9,993 passenger vehicles. Cuba imported 4,663 passenger cars and 1,526 commercial automobiles. Brazil was next behind Canada in imports of passenger cars to the total of 8,169. British India imported 8,144 passenger cars and British South Africa 5,752. Australia took 5,898. Argentina 3,343 and New Zealand 5,238 passenger cars.

The Scandinavian countries also were heavy purchasers of passenger automobiles. Norway taking 3,035 and Sweden 4,055. Spain purchased 2,714. Denmark 2,374. China 1,059. Uruguay 2,754. Peru 1,051. Mexico 2,749. Philippine Islands 2,444, and Chile 619. France imported only 339 passenger vehicles, but it took 1,392 commercial cars. Japan also purchased 1,036 commercial trucks and Mexico 1,017.

American motorcycles also continued in heavy demand a total of 35,041 valued at \$9,550,922 being exported during the fiscal year.

The demand for American machines brought with it a corresponding demand for equipment. The value of automobile tires exported during the fiscal year

## TRADE WITH GERMANY RAPIDLY INCREASING

Washington. — Mr. Albert C. Tech, director of the technical state of war still exists between the United States and Germany and Austria, trade with those countries is rapidly increasing. Reports of the department of commerce show that exports to Germany totaled \$202,176,079 during the 12 months ended last June 30 as compared with \$8,818,882 during the corresponding 12 months the year before. Imports from Germany jumped from \$944,981 in 1919 to \$45,085,975 during the year ending July 1.

Exports to Austria as distinguished from Austria-Hungary were valued at \$11,847,127 as compared with nothing the year before. Imports from that country for the same period were valued at \$587,108.

Trade with Russia in Europe also showed a substantial increase in the past year, exports being valued at \$34,639,901 as compared with \$11,000,000 the year before. Imports from that country, however, were valued at only \$2,443,288.

## 4,000,000 PEOPLE

Annually use these tablets of organic iron—Nuxated Iron—to build up red blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are ageing and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, pale and watery, they are not giving the natural life forces of the body a chance to do their work. Iron is red blood food and in my experience I have found no better means for building up the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of predigested organic iron which is easily assimilated by the blood.

**House Wrecked by Sheriffs**

The courts in 1915 ruled that Streeter had no title to the property and his brick castle, which had succeeded the steamboat home, was wrecked by deputy sheriffs and then burned.

In 1902 Streeter and two friends were convicted of manslaughter in connection with the death of John S. Kirke, killed in one of the frequent assaults on the castle. All were sentenced to life imprisonment, but after a few months were released.

The site of the "deestriet" is now covered by more than a dozen skyscraper apartment buildings and hotels. The land is valued at more than \$50,000,000. Many of the present owners have purchased deeds from Streeter as well as the state, in order that their occupancy may not be interfered with by the 80-year old fire-eating veteran.

Streeter's claim is based on the contention that the act creating the state of Illinois fixed the "meander line" of the lake as the boundary, and that therefore his "deestriet" was outside the state and owed allegiance to no one except the United States. The courts held, however, that Illinois extended to the center of Lake Michigan, that all land created by natural secretions of the lake belonged to the adjoining property owners, and that all land created artificially belonged to the state. The stranding of Streeter's steamship created land artificially, it was held.

**THE RAIN**

Nearly everybody was kept at home yesterday by the rain the generally there was a good feeling as there has not been any too much water in the ground. An automobile traveler coming here yesterday from Decatur didn't strike mud until he reached Springfield and from that on the rain had been heavy. Fall pastures, late corn and wheat grow and will all feel the benefit of the shower of Monday night and Tuesday.

### LARGE MOTOR VEHICLE SHIPMENT FROM U. S.

Department of Commerce Shows Large Export of Commercial and Passenger Cars in Fiscal Year Just Closed.

WASHINGTON. — The whole world seems to be demanding motor vehicles and is looking to the United States for its supply. Records of the Department of Commerce for the fiscal year 1920, just ended, show that automobiles and parts of automobiles valued at \$22,252,376 were shipped from this country. This was nearly nine times the total value of such exports before the war.

The number of commercial cars exported during the 12 months ended June 30 was 24,356, valued at \$11,577,684 as compared with 12,921 valued at \$33,223,485 in 1919. Passenger car shipments showed an even greater increase, the total being 115,519 valued at \$125,384,925 as compared with 41,291 valued at \$45,852,705 the year before.

The United Kingdom led in the imports of both commercial and passenger cars, taking 4,593 of the former and 17,528 of the latter. Canada was second in the matter of both types of cars taking 2,443 commercial and 9,993 passenger vehicles. Cuba imported 4,663 passenger cars and 1,526 commercial automobiles. Brazil was next behind Canada in imports of passenger cars to the total of 6,109. British India imported 8,144 passenger cars and British South Africa 5,752. Australia took 5,898. Argentina 3,343 and New Zealand 5,223 passenger cars.

The Scandinavian countries also were heavy purchasers of passenger automobiles. Norway taking 3,035 and Sweden 4,055. Spain purchased 2,714, Denmark 2,374, China 1,059, Uruguay 2,754, Peru 1,051, Mexico 2,749. Philippine Islands 2,444, and Chile 619. France imported only 839 passenger vehicles, but it took 1,392 commercial cars. Japan also purchased 1,096 commercial trucks and Mexico 1,017.

American motorcycles also continued in heavy demand a total of 35,041 valued at \$9,550,922 being exported during the fiscal year.

The demand for American machines brought with it a corresponding demand for equipment. The value of automobile tires exported during the fiscal year

1920 was \$39,919,777 as compared with \$22,630,200 the year before. The total of automobile engines shipped was 39,421, valued at \$6,070,49, compared with 28,45 valued at \$4,434,244 the year before.

**TRADE WITH GERMANY RAPIDLY INCREASING**

Washington. — Although a technical state of war still exists between the United States and Germany and Austria, trade with those countries is rapidly increasing. Reports of the department of commerce show that exports to Germany totaled \$202,176,079 during the 12 months ended last June 30 as compared with \$8,818,882 during the corresponding 12 months the year before. Imports from Germany jumped from \$944,981 in 1919 to \$45,085,975 during the year ending July 1.

Exports to Austria as distinguished from Austria-Hungary were valued at \$11,847,127 as compared with nothing in the year before. Imports from that country for the same period were valued at \$587,108.

Trade with Russia in Europe also showed a substantial increase in the past year, exports being valued at \$34,639,901 as compared with \$11,000,000 the year before. Imports from that country, however, were valued at only \$2,443,288.

**VISITOR FROM OKLAHOMA**

Mrs. Otis Cafky of Forgan, Okla., is in the city visiting Mr. Cafky's father, Mr. S. Cafky and daughter on South Prairie street and various other friends and relatives in the city and county. Mr. Cafky is in the banking business and has four banks in various places in which he is interested and is doing an excellent business. His brother William now lives in Florence, Colo., and is state oil inspector and is doing well.

Mrs. Cafky, whose maiden name was Miss Mary Ella Wright says she likes her home for the business they have done there and its many possibilities, yet there is no place like dear old Jacksonville with its fine trees and many other attractions. She has in her home some trees growing but they are small yet. She is looking wonderfully well and no one would for a moment imagine from her appearance that she has a child 27 years old. She thinks women hardly grow old as fast in her country as here and she must be right if her looks count for an argument.

**4,000,000 PEOPLE**

Annually use these tablets of organic iron—Nuxated Iron—to build up blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says: "There are thousands whose bodies are seeping and breaking down at a time when they should be enjoying that perfect health which carries defiance to disease simply because they are not awake to the condition of their blood. By allowing it to remain thin, forces of the body a chance to do their work. Iron is red blood food and in my experience I have found no better means for building the red blood corpuscles and helping to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form only and does not contain any ordinary metallic iron but only the finest quality of predigested organic iron which is easily assimilated by the blood.

## Grain Drills Are Bought to Sow Wheat

### Why Not Buy the BEST on the Market?

**You know and we know the HOOSIER Grain Drill pleases more farmers than any other drill made. It does just what you want just when you want it done. No one can afford to plant seed with a poor, half worn out tool. Head off the bad weather by the purchase and use of a HOOSIER DRILL. Reap four more bushels of wheat per acre next season by properly sowing with a HOOSIER DRILL.**

**The drill for all the farmers is THE EASY PULL HOOSIER. Owners of HOOSIER DRILLS swear by them, whereas others. You will be satisfied, and that is worth a lot, if you use a Hoosier Drill to sow your wheat this fall.**

## T. P. LANING

304 Ayers Bank Bldg.  
The superiority of Nu-Bone Cor-  
sets is due to their distinct differ-  
ence from all others—features  
they have which no other corsets  
can have. This difference is due  
to The Patented Nu-Bone Stay  
which is the only woven wire stay  
in existence. The machines that  
weave the three or five strands of  
finest piano wire into the Nu-Bone  
Stay are patented, owned and op-  
erated by the Nu-Bone Corset Com-  
pany only. The Stays are used  
only in Nu-Bone Corsets. Nu-  
Bone Corsets are made-to-measure  
—also kept in stock. Call, write

## Getting More Gasoline

DEMAND FOR OIL  
GROWING FASTER  
THAN PRODUCED

Washington, D. C., June 29.—(Special).—Production of gasoline increased 1,552,990 gallons daily, or 15 1/2 per cent during the first four months of 1920, according to a statement issued today by the bureau of mines. As against this increase in production, however, the domestic consumption of gasoline increased 2,148,990 gallons daily, or 53 per cent.

—(From an article Chicago Tribune June 30, 1920.)

THIS epitomizes the situation accurately. It also indicates how great is the task of the Standard Oil Company (Indiana).

But fuel for automotive power must be supplied. Especially is this true in the territory served by the Standard Oil Company (Indiana), because in this area—the bread-basket of the nation—so large a percentage of the gasoline is consumed in producing food.

Take away—even cripple—the automotive power on the Middle West farms and food prices will soar because of decreased production.

The power-driven tractor is the only means by which the farmer can cope successfully with the shortage of man-power.

By extensive research and intensive application the Standard Oil Company (Indiana) has increased the yield of gasoline from crude to the greatest degree yet known. But it is not satisfied.

The Company is striving to further increase the yield so that the use of the tractor, truck, the automobile, and the stationary gas engine may be used freely and without restriction.

It is apparent that the Standard Oil Company (Indiana) by increasing the yield has exerted, also, a downward influence on the price of gasoline.

### REBUILDING OF FRANCE GREAT ACHIEVEMENT

New York Publisher, After Period of Research in Paris, Tells of Remarkable Rehabilitation in Former Devastated Regions.

New York—France's "victory of peace" in her reconstruction "nails the lie that her people are not working," Herbert S. Houston, New York publisher, declares after a period of research at Paris whence he recently returned.

Offering statistics showing remarkable rehabilitation in former devastated regions, where German divisions wrought havoc in industrial, farming and mining sections, Mr. Houston characterizes the recovery of the French people as another "miracle of the Marne." In an article in the current issue of World's Work he says:

What France Has Done.  
With government support, including loans totalling 9,609,032,916 francs for agricultural and industrial reconstruction in "devastated departments," the French people have reopened 5,345 out of 6,445 schools existing before war; built or rebuilt 28,200 temporary wooden and 16,800 permanent stone dwellings, and erected 28,500 wooden barracks to replace houses destroyed; cleared 3,339,000 hectares (a hectare is about 2 1/2 acres) out of 3,950,000 of barbed wire and trenches; employed 1,500 men pumping out and cleaning up flooded mines; rebuilt 475 out of 600 railroad bridges, with 80 more in course of construction; deepened virtually all of 1,100 kilometers of canals destroyed and rebuilt 136 wharves and built 28 new ones.

"Today, less than two years from the armistice, the population of the invaded regions has grown from less than 2,000,000 to more than 4,000,000 approximately three quarters of the pre-war population," Mr. Houston says, adding that the return was "not that of the prodigal son."

America's Contribution.  
America's committees have done much to help France rebuild, Mr. Houston declares, adding that introduction of farming machinery to the French peasant probably was America's best contribution.

"As a result to a considerable degree of this mechanical assistance, greatly increasing the producing power of the poorer workers, the devastated regions in 1920 will raise enough crops for food," he predicts.

The Workshop of France.  
"So it was throughout the whole

industrial region of the north, the great workshop of France," Mr. Houston says. "The tale of rebuilding, now to be added to Frenchmen's annals, will always be a chapter of achievement, almost as important and vital as the defense against the German invasion."

By 1922, Mr. Houston asserts, France hopes to have her mines producing again, with about 8,000 miners working where 17,000 labored before the war. Within five or six years after that she expects to be working up to the three-quarters of before the war production.

"The lie that France is not at work should be seared on the lips of everyone who utters it" writes Mr. Houston. "If she is not at work, how can she be reclaiming her fields, rebuilding her roads and houses and factories and towns, and re-establishing the shattered life over one-fifth of her territory? That she is doing that, anyone can see who visits France or who takes the small trouble to look up the facts. And she is doing it before she has received the indemnity pledged to her by the Peace Treaty and repudiated again and again by everyone of her allies."

## Asserts New Discovery Brings Blessed Relief to Hay Fever Sufferers

Can Make it Yourself at Home at Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing Hay Fever into less than a mild cold, claims most emphatically that if taken in time Hay Fever or Rose Fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through Pharmacists to all Hay and Rose Fever sufferers who still have faith that nature has provided an effective remedy for this common, yet miserable disease.

And best of all this remedy costs almost nothing. Get three-quarter ounce bottle of Mentholized Arcine at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled. Then gargle as directed and twice daily snuff or spray each nostril thoroughly.

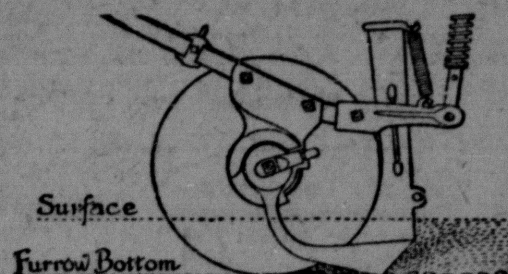

That's all there is to it; so simple that a lot of people will say that it can't do the work, but oftentimes simple, natural remedies are the best; as you will find after using.

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

Mentholized Arcine is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.

## REBUILDING OF FRANCE GREAT ACHIEVEMENT

New York Publisher, After Period of Research in Paris, Tells of Remarkable Rehabilitation in Former Devastated Regions.

New York—France's "Victory of peace" in her reconstruction "nails the lie that her people are not working," Herbert S. Houston, New York publisher, declares after a period of research at Paris whence he recently returned.

Offering statistics showing remarkable rehabilitation in former devastated regions, where German divisions wrought havoc in industrial, farming and mining sections, Mr. Houston characterizes the recovery of the French people as another "miracle of the Marne." In an article in the current issue of World's Work he says:

What France Has Done.

With government support, including loans totalling 9,609,082, 916 francs for agricultural and industrial reconstruction in "devastated departments," the French people have reopened 5,345 out of 6,445 schools existing before war; built or rebuilt 28,200 temporary wooden and 16,800 permanent stone dwellings, and erected 28,500 wooden barracks to replace houses destroyed; cleared 3,339,000 hectares (a hectare is about 2 1/2 acres out of 3,950,000 of barbed wire and trenches; employed 1,500 men pumping out and cleaning up flooded mines; rebuilt 475 out of 600 railroad bridges, with 80 more in course of construction; deepened virtually all of 1,100 kilometers of canals destroyed and rebuilt 136 wharves and built 28 new ones.

"Today, less than two years from the armistice, the population of the invaded regions has grown from less than 2,000,000 to more than 4,000,000 approximately three quarters of the pre-war population," Mr. Houston says, adding that the return was "not that of the prodigal son."

America's Contribution.

America's committees have done much to help France rebuild, Mr. Houston declares, adding that introduction of farming machinery to the French peasant probably was America's best contribution.

"As a result to a considerable degree of this mechanical assistance, greatly increasing the producing power of the poorer workers, the devastated regions in 1920 will raise enough crops for food," he predicts.

The Workshop of France.

"So it was throughout the whole

industrial region of the north, the great workshop of France," Mr. Houston says. "The tale of rebuilding, now to be added to Frenchmen's annals, will always be a chapter of achievement, almost as important and vital as the defense against the German invasion."

By 1922, Mr. Houston asserts, France hopes to have her mines producing again, with about 8,000 miners working where 17,000 labored before the war. Within five or six years after that she expects to be working up to the three-quarters of before the war production.

"The lie that France is not at work should be seared on the lips of everyone who utters it" writes Mr. Houston. "If she is not at work, how can she be reclaiming her fields, rebuilding her roads and houses and factories and towns, and re-establishing the shattered life over one-fifth of her territory?" That she is doing that, anyone can see who visits France or who takes the small trouble to look up the facts. And she is doing it before she has received the indemnity pledged to her by the Peace Treaty and repaid again and again by everyone of her allies."

THE NATIONAL G. A. R. ENCAMPMENT

George W. Fox, now residing in Indianapolis, has written asking how many from Jacksonville are likely to attend the national encampment of the G. A. R. at Indianapolis, Sept. 19-25. If desired he will try to secure accommodations for them. All veterans and members of their families who desire to attend, please leave names as soon as possible at the Journal office if they wish to have rooms reserved for them by Comrade Fox.

## Asserts New Discovery Brings Blessed Relief to Hay Fever Sufferers

Can Make it Yourself at Home at Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing Hay Fever into less than a mild cold, claims most emphatically that if taken in time Hay Fever or Rose Fever can be conquered or at least made so harmless that it is not even bothersome.

He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through Pharmacists to all Hay and Rose Fever sufferers who still have faith that nature has provided an effective remedy for this common, yet miserable disease.

And best of all this remedy costs almost nothing. Get three-quarter ounce bottle of Mentholized Arcline at any drug store, pour the contents into a pint bottle and fill the pint bottle with water that has been boiled. Then gargle as directed and twice daily sniff or spray each nostril thoroughly.

That's all there is to it; so simple that a lot of people will say that it can't do the work, but oftentimes simple, natural remedies are the best; as you will find after using.

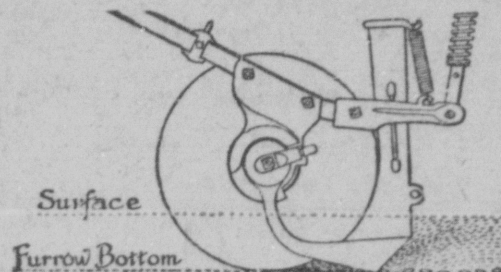

If you will make up a pint and use it for a week or ten days you need not be surprised if your unwelcome yearly visitor fails to appear.

Mentholized Arcline is new in this market. It is possible that your druggist has not supplied himself, but he can get it for you from his jobber, who has a large supply.
